99. Notwithstanding anything contained in section 97, whenever the borrowing of any sum has been sanctioned under that section, the Corporation may, instead of borrowing such sum or any part thereof from the public or any member thereof, take credit on such terms as may be sanctioned by the Local Government, from any bank on a cash account to be kept in the name of "the Municipal Corporation of the City of Calcutta" to the extent of such sum or part and, with the sanction of the Local Government, may grant mortgages of all or any of the property vested in the Corporation by way of securing the repayment of the amount of such credit or of the sums advanced from time to time on such cash account with interest.

102. All coupons attached to debentures issued under this Act shall bear the signature of the Executive Officer; and such signature may be engraved, lithographed or impressed by any mechanical process.

(Part III.—Chapter VIII.—Loans.—Sections 103—107.)

Payment to survivors of joint payees.

103. When any debenture or security issued under this Act is payable to two or more persons jointly, and either or any of them dies, then, notwithstanding anything in section 45 of the Indian Contract Act, 1872, the debenture or security shall be payable to the survivor or survivors of such persons: IX of 1872.

(*2*) The rate of interest, on the basis of which the sum referred to in sub-section (*1*) shall be calculated, shall be such as may be prescribed by the Government of India.

(*3*) A separate Sinking Fund shall be established in respect of each loan referred to in section 105.

Power to discontinue payments into Sinking Fund

114. Until any loan is wholly repaid, the Corporation shall not apply the Sinking Fund established in respect of that loan to any purpose other than the repayment of that loan:

Provided that—

117. (*1*) All Sinking Funds established under this Act shall be subject to annual examination by the Accountant-General, Bengal, who shall ascertain whether the cash and the value of the securities belonging thereto are actually equal to the amount which should be at the credit of such funds had investments been regularly made and had the rate of interest as originally estimated been obtained therefrom.

(*2*) The amount which should be at the credit of a Sinking Fund shall be calculated on the basis of the present value of all future payments required to be made to such fund under the provisions of this Act, on the assumption that all investments are regularly made and the rate of interest as originally estimated is obtained therefrom.

The value of securities belonging to a Sinking Fund shall be their current value unless they fall due for redemption at par or above before maturity of the Fund in which case their current value shall be taken as their redemption value, except in the case of Calcutta Municipal Debentures which shall always be valued at par, provided that the Corporation shall make good immediately any loss which may accrue on the actual sale of such debentures at the time of the repayment of the loan.

(*3*) The Corporation shall forthwith pay into any Sinking Fund any amount which the Accountant-General may certify to be deficient, unless the Local Government specially sanction a gradual readjustment.

(*4*) If the cash and the value of the securities at credit of any Sinking Fund are in excess of the amount which should be at its credit, the Accountant General shall certify the amount of such excess sum, and the Corporation may thereupon transfer the excess sum to the Municipal Fund.

(Part III.—Chapter VIII.—Loans.—Sections 118, 119.)

(*5*) If any dispute arises as to the accuracy of any certificate made by the Accountant-General under sub-section (*3*) or sub-section (*4*), the Corporation may, after making the payment or transfer therein mentioned, refer the matter to the Local Government, whose decision shall be final.

(*2*) After such attachment, no person except an officer appointed in this behalf by the Local Government shall in any way deal with the attached fund or portion thereof; but such officer may do all acts in respect thereof which the Corporation or any Municipal Officer or servant might have done if such attachment had not taken place, and may apply the proceeds in satisfaction of the arrear and of all interests and costs due in respect thereof and of all expenses caused by the attachment and subsequent proceedings:

Provided that no such attachment shall defeat or prejudice any debt for which the fund attached was previously pledged in accordance with law; but all such prior charges shall be paid out of the proceeds of the fund before any part of the proceeds is applied to the satisfaction of the debt due to the Government.

Attachment of Municipal Fund for securing payment into Sinking Fund.

119. If the Corporation fail to make any payment as required by section 117, sub-section (*3*), the Local Government may attach the Municipal Fund or any portion thereof; and the provisions of section 118, sub-section (*2*), shall, with all necessary modifications, be deemed to apply.

CHAPTER X.

THE CONSOLIDATED RATE.

Imposition of consolidated rate.

Power to Corporation to impose consolidated rate.

124. A consolidated rate not exceeding twenty-three *per cent.* on the annual valuation determined under this chapter may be imposed by the Corporation upon all lands and buildings in Calcutta for the purposes of this Act.

Amount of consolidated rate, how to be fixed

125. The amount of the said rate shall be fixed annually, in the manner provided in Chapter VII, with reference to the requirements of the Municipal Fund.

Exemptions.

Exemptions from consolidated rate

126. (*1*) Buildings used exclusively for purposes of public worship, and public burial or burning grounds or other places for the disposal of the dead duly registered under Chapter XXXI, shall be exempt from the consolidated rate;

and the Corporation may either wholly or partially exempt from the consolidated rate any land or building used exclusively for purposes of public charity:

Provided that the following land and buildings shall not be deemed to be used exclusively for public worship or for purposes of public charity within the meaning of this section, namely,—

(*a*) land or buildings in or on which any trade or business is carried on; and

(*b*) land or buildings in respect of which rent is derived, whether such rent is or is not applied exclusively to religious purposes or purposes of public charity.

(*3*) The Corporation may exempt the owner of any hut from payment of the whole or any portion of the consolidated rate payable in respect of such hut, and in any such case they may exempt the owner of the land on which the hut is built, or not, as they think fit.

(*4*) The Corporation may, by resolution, exempt from the consolidated rate all lands and buildings the annual valuation of which, as determined under this chapter, does not exceed twenty rupees or such smaller sum as may be specified in such resolution:

(Part IV.—Chapter X.—The consolidated rate.—Section 127.)

Provided that no person shall be entitled to claim the benefit of such exemption if he owns or occupies more than one piece of land or more than one building and the aggregate annual valuation of all the lands or buildings owned or occupied by him exceeds twenty rupees or the said smaller sum.

Assessment of lands and buildings to the consolidated rate.

Annual value of land or building, how to be ascertained.

127. For the purpose of assessing land and buildings to the consolidated rate,—

(*a*) the annual value of land, and the annual value of any building erected for letting purposes or ordinarily let, shall be deemed to be the gross annual rent at which the land or building might at the time of assessment reasonably be expected to let from year to year, less, in the case of a building, an allowance of ten *per cent.* for the cost of repairs and for all other expenses necessary to maintain the building in a state to command such gross rent; and

(*b*) the annual value of any building not erected for letting purposes and not ordinarily let shall be deemed to be five *per cent.* on the sum obtained by adding the estimated present cost of erecting the building, less a reasonable amount to be deducted on account of depreciation (if any), to the estimated present value of the land valued with the building as part of the same premises:

Provided as follows:—

(*i*) the annual value of a *bustee* shall be deemed to be the gross annual rent at which the land contained within it, excluding the lands which have been left vacant for the purposes of any *bustee* street prescribed in or under a standard plan approved by the Corporation under Chapter XXII, might reasonably be expected to let from year to year, *plus* the gross annual rent at which the huts erected thereon might reasonably be expected to let from year to year, after deducting therefrom the rent of the land and an allowance of ten *per cent.* for the cost of repairs and for all expenses necessary to maintain such huts in a state to command such gross rent;

(*ii*) in calculating the value of any land or building under this section, the value of any machinery on such land or in such building shall be excluded, but all fixtures including lifts and electric and other fittings which add to the convenience of the building shall be valued, subject in the case of a lift to such deduction from the valuation, as the Executive Officer may think proper, on account of the cost of repairs to, maintenance of, and attendance on, such lift;

(Part IV.—Chapter X.—The consolidated rate.—Sections 128, 129.)

(*iii*) if in the case of a building valued under clause (*b*), the annual value of which does not exceed five hundred rupees, any exceptional circumstances exist which render a valuation of five *per cent.* on the cost of erecting the building less depreciation, excessive, a lower percentage may be taken;

(*iv*) when any building has been valued at a special percentage taken under proviso (*iii*), it may be re-valued at any time after the exceptional circumstances referred to in that proviso have ceased to exist.

Annual value of land or building belonging to the Calcutta Improvement Trust

128. For the purpose of assessing land and buildings belonging to the Board of Trustees for the Improvement of Calcutta to the consolidated rate, the annual value of such land or building acquired by purchase or otherwise by the Board for the execution of an improvement scheme for the purposes of the Calcutta Improvement Act, 1911, which has been framed after the commencement of this Act, shall be deemed to be five *per cent.* on the cost of acquisition thereof, subject, on application made in this behalf by the Board, to revision by the Local Government; and such annual value shall be fixed from the date of the acquisition in each succeeding quarter on the basis of such cost, and shall, notwithstanding anything contained in section 131, remain in force until the streets (if any) laid out or altered and the open spaces (if any) provided in executing the scheme have vested in the Corporation under section 65 of the said Act. Ben Act V of 1911.

Explanation.—For the purposes of this section the cost of acquisition means—

(*d*) in any other case, including the erection of any new structures subsequent to the acquisition, such valuation as may be determined by the Executive Officer.

No remission for vacancy in the case of land or building belonging to the Board

129. Notwithstanding anything contained in sections 151 to 156, and subject to the provisions of section 128, when any land or building belonging to the Board is valued under section 128, no remission or refund of the consolidated rate assessed in respect of such land or building shall be allowed on

(Part IV.—Chapter X.—The consolidated rate.—Sections 130, 131.)

the ground that it is unoccupied, but both the owner's and the occupier's share of the consolidated rate shall be payable in full as long as such land or building belongs to the Board and is assessed under section 128.

130. When the Board has executed any scheme referred to in section 128, and the streets (if any) laid out or altered and the open spaces (if any) provided in executing such scheme have vested in the Corporation under section 65 of the Calcutta Improvement Act, 1911, the valuation made under section 128 shall terminate, and any land or building acquired by purchase or otherwise by the Board for the execution of such scheme and remaining vested in the Board at the termination of such valuation shall be revalued under section 127, and such revaluation shall remain in force for such period as remains unexpired in the ward in which it is included

(*c*) if, during the currency of any period prescribed by sub-section (*1*), any substantial alteration and improvement is made in any building the Executive Officer may cause such building to be re-valued; and such re-valuation shall remain in force, and the consolidated rate shall be levied according to it, until the expiration of the said period;

(*a*) any land (abutting on a public street) upon which any portion of any building or wall, projecting beyond the front of the adjoining building or wall, on either side of such first-mentioned building or wall, has collapsed or been demolished or burnt down, and

(*b*) any land not covered by buildings (including land on which a building has collapsed or been demolished or burnt down) which is situated within a street alignment prescribed under section 302,

after making full compensation to the owner thereof for any direct damage which he may sustain thereby and shall take possession of any land as specified, in clause (*b*) if the owner thereof calls upon them to do so.

(*2*) Any land taken possession of under sub-section (*1*) shall forthwith be added to and become part of the said street, and shall vest in the Corporation.

Explanation.—The expression "direct damage," as used in sub-section (*1*) with reference to land, means the market-value of the land taken and the depreciation, if any, in the ordinary market-value of the rest of the land resulting from the area being reduced in size; but does not include damage due to any particular use to which the owner may allege that he intended to put the land although such use may be injuriously affected by the reduction of the site.

Power to Corporation to set buildings forward to improve line of public street.

305. The Corporation may, upon such terms as they think fit, allow any building or wall to be set forward for the purpose of improving the line of a public street.

(Part V.—Chapter XX.—Streets and public places.—Sections 306—309.)

Opening, improvement and closing of public streets, squares and gardens.

Power to Corporation to make, improve and close streets, squares and gardens.

306. The Corporation may—

(*a*) lay out and make new streets, squares and gardens;

(*b*) construct new bridges, causeways, culverts and sub-ways;

(*c*) turn, divert, or temporarily or permanently close any public street or part thereof, or permanently close any public square or garden; and

(*d*) widen, open, enlarge, or otherwise improve any public street, square or garden.

Power to Corporation to dispose of a permanently closed street, square or garden.

307. (*1*) When any public street, or part thereof, or any public square or garden is permanently closed under section 306, the Corporation may sell or lease the site of so much of the road-way and foot-path as is no longer required, or the site of the square or garden, as the case may be, making due compensation to, or providing means of access for, any person who may suffer damage by such closing.

(*2*) In determining such compensation under section 523, the court shall make allowance for any benefit accruing to the same premises or any adjacent premises belonging to the same owner from the construction or improvement of any other public street, square or garden, at or about the same time that the public street, square or garden, on account of which the compensation is paid, is closed.

Projected public streets.

Projected public streets.

308 (*1*) The Corporation may from time to time prepare schemes and plans of projected public streets, showing the direction of such streets, the street alignment and building-line on each side of them, their intended width, and such other details as may appear desirable.

(*2*) The width of such projected streets, inclusive of space for foot-paths, shall not be less than forty feet or, in a *bustee*, twenty feet:

Provided that—

(*a*) the Corporation may, for special reasons, reduce the width of any projected street, but not so as to be less than thirty feet or in a *bustee* sixteen feet; and

(*b*) this sub-section shall not apply in any case in which the projected street, or any part thereof, runs along an existing street and the Corporation consider it impracticable to widen the street to the extent of forty feet or twenty feet, as the case may be.

Provisions of sections 302 and 303 to apply to projected public streets.

309. The provisions of sections 302 and 303 shall, with all necessary modifications, apply to public streets projected under section 308.

(Part V.—Chapter XX.—Streets and public places.—Sections 310, 311.)

Acquisition of land and buildings.

Power to Corporation to acquire land and buildings for improvement of public streets, squares and gardens.

310. (*1*) The Corporation may acquire—

(*a*) any land required for the purpose of opening, widening, extending or otherwise improving any public street, square or garden, or of making any new public street, square or garden, and

(*b*) the buildings (if any) standing upon such land.

(*2*) The Corporation, with the sanction of the Local Government, and after giving due notice of their intention and an opportunity to any objector, who appears within such period as they may fix, to be heard in this connection, may acquire, in addition to any land and buildings acquired under sub-section (*1*), any land outside any proposed street alignment, with the buildings (if any) standing thereupon, which the Corporation may, for any of the purposes mentioned in sub-section (*1*), including the recoupment of the cost or any portion of the cost incurred for any such purposes, consider it expedient to acquire.

Abandonment of acquisition.

Abandonment of acquisition in consideration of special payment.

311. (*1*) In any case in which the Local Government have sanctioned the acquisition of land under section 310, sub-section (*2*), the owner of the land, or any person having an interest therein greater than a lease for years having seven years to run, may make an application to the Corporation, requesting that the acquisition of the land be abandoned in consideration of the payment by such person of a fee to be fixed by the Corporation in that behalf.

(*2*) The Corporation shall admit every such application if it reaches them before the time fixed by the Collector under section 9 of the Land Acquisition Act, 1894, for making claims in reference to the land: I of 1894

Provided that unless the application is made by all the persons who have an interest in the land greater than a lease for years having seven years to run, the application shall not be deemed to be admitted unless the person applying undertakes to pay in one instalment the full fee payable under sub-section (*3*) and thereafter pays such fee.

Explanation.—A mortgagee shall not be deemed to be a person having an interest in the land greater than a lease for years having seven years to run.

(*3*) If the Corporation decide to admit any such application, they shall forthwith inform the Collector, and the Collector shall thereupon stay proceedings for the acquisition of the land, for such period as the Corporation may request, and the Corporation shall proceed to fix a fee in consideration of which the acquisition of the land may be abandoned.

(Part V.—Chapter XX.—Streets and public places.—Section 311.)

(*4*) In fixing the fee to be paid in consideration of the abandonment of the acquisition of the land, the Corporation shall, so far as to them may appear to be practicable, fix a sum which in their opinion represents two-thirds of the increment in the value of the land, which will in their opinion accrue to that land as a result of the improvements effected in the locality by the scheme for the purposes of which the acquisition has been sanctioned.

(*5*) Such fee shall be and remain a charge on the land, in respect of which it has been fixed, until the repayment thereof with interest in the manner hereinafter provided and shall be payable by the applicant on or before a date to be fixed by the Corporation in this behalf; and such date shall not be less than four years from the publication of the notification under section 6 of the Land Acquisition Act, 1894, nor shall such date be a date before that on which the scheme is declared by the Corporation to be completed in so far as it affects such land. I of 1894.

(*6*) Before the date so fixed, the person from whom the Corporation have arranged to accept the said fee, may, if the Corporation are satisfied that the security offered by him is sufficient, execute an agreement with the Corporation either—

(*i*) to leave the said fee outstanding as a charge on his interest in the land, subject to the payment in perpetuity of interest at a rate not exceeding seven *per cent. per annum*, the said interest to run from the date fixed under sub-section (*5*), or

(*ii*) to pay the said fee by such number of equal yearly or half-yearly instalments of principal or of principal and interest, as may be approved by the Corporation, interest in both cases being calculated at a rate not exceeding seven *per cent. per annum* on the amount outstanding.

(*7*) When the said fee has been paid on or before the date fixed under sub-section (*5*), or when an agreement has been executed in pursuance of sub-section (*6*) in respect of any land, the proceedings for the acquisition of the land shall be deemed to be abandoned.

(*8*) If the said fee be not paid on or before the date fixed under sub-section (*5*), the Collector shall then proceed to acquire the land.

(*9*) If any sum payable under an agreement executed in pursuance of sub-section (*6*) be not paid on the date on which it is due, or on such later date as the Corporation may in their discretion fix in this behalf, so much of the fee fixed by the Corporation under sub-section (*3*) as is still unpaid, shall be payable on that date, in addition to the said sum.

(Part V.—Chapter XX.—Streets and public places.—Sections 312—314.)

(*10*) At any time after an agreement has been executed in pursuance of clause (*i*) of sub-section (*6*), any person may pay off the balance outstanding of the charge created thereby, with interest due, if any, at a rate not exceeding seven *per cent. per annum*, up to the date of such payment.

Recovery of money payable in pursuance of section 311.

312. When an agreement has been executed by any person in pursuance of section 311, sub-section (*6*), in respect of any land, and any money payable in pursuance of that section is not duly paid, the same shall be recoverable by the Corporation (together with interest up to the date of realization, at a rate not exceeding seven *per cent. per annum*), under the provisions of this Act ;

and, if not so recovered, the Corporation may, after giving public notice of their intention to do so, and not less than one month after the publication of such notice, sell the interest of the said person or successor in such land by public auction, and may deduct the said money and the expenses of the sale from the proceeds of the sale, and shall pay the balance (if any) to the defaulter.

Agreement or payment under section 311 not to bar acquisition under a fresh declaration.

313. If any land in respect of which an agreement has been executed, or a payment has been accepted, in pursuance of section 311, sub-section (*6*), be subsequently required for any of the purposes of this Act, the agreement or payment shall not be deemed to prevent the acquisition of the land in pursuance of a fresh declaration published under section 6 of the Land Acquisition Act, 1894. I of 1894.

Special provisions as to private streets.

Making of new private streets.

314. (*1*) Any person intending to make or lay out a new private street shall send to the Corporation a written notice, with plans and sections showing the following particulars of the proposed street, namely :—

(*a*) the level, width and alignment thereof, and

(*b*) the arrangements to be made for levelling, paving, metalling, flagging, channelling, sewering, draining and lighting the street.

(*2*) The provisions of this Act as to the width of public streets and the height of buildings abutting thereon, and as to projected public streets, shall respectively apply in the case of streets referred to in sub-section (*1*) ; and all the particulars referred to in that sub-section shall be subject to approval by the Corporation :

Provided that the Corporation may allow a private street to be made or laid out of a width less than forty feet but not less than twenty feet, and, if the street is less than two hundred feet in length, the maximum width of such street may ordinarily be taken to be thirty feet instead of forty feet.

(Part V.—Chapter XX.—Streets and public places.—Sections 315, 316.)

(*3*) Within ninety days after the receipt of any notice under sub-section (*1*), the Corporation shall either sanction the making of the street, or disallow it, or ask for further information with respect to such street.

(*4*) Such sanction may be refused—

(*i*) if the proposed street would conflict with any arrangements which have been made, or which are in the opinion of the Corporation likely to be made within a reasonable period, for carrying out any general scheme of street improvement, or

(*ii*) if the proposed street does not conform to the provisions of this Act referred to in sub-section (*2*), or

(*iii*) if the proposed street is not designed so as to connect at one end with a street which is already open.

(*5*) If further information is asked for under sub-section (*3*), no steps shall be taken to make or lay out the street until orders have been passed upon receipt of such information, and such orders shall be passed within ninety days of the receipt of such further information.

(*6*) If within ninety days after the receipt of any notice under sub-section (*1*), or within ninety days after the receipt of any further information asked for under sub-section (*3*), the Corporation has not refused sanction to the making of the private street, it shall be deemed that sanction to the same has been granted.

Prohibition of breach of section 314

315. Except as provided in sub-section (*6*) of section 314, no person shall make or lay out any street referred to in sub-section (*1*) of that section,—

(*a*) until he has obtained the sanction of the Corporation under that section, or

(*b*) in contravention of any orders made thereunder.

Alteration or demolition of street made in breach of section 314.

316. (*1*) If any person makes or lays out any street referred to in section 314, sub-section (*1*), without having obtained the sanction of the Corporation under that section, or in contravention of any orders made thereunder, they may, whether or not the offender be prosecuted under this Act, by written notice,—

(*a*) require the offender to show sufficient cause, by a written statement signed by him and sent to the Corporation on or before such day as may be specified in the notice, why such street should not be altered to their satisfaction or, if such alteration be impracticable, why such street should not be demolished, or

(*b*) require the offender to appear before them, either personally or by a duly authorized agent, on such day and at such time and place as may be specified in the notice, and show cause as aforesaid.

(*2*) If any person on whom such notice is served fails to show sufficient cause, to the satisfaction of the Corporation, why such street should not be so altered or demolished, they may cause the street to be so altered or demolished, and the expenses thereof shall be paid by such person.

(Part V.—Chapter XX.—Streets and public places.—Sections 317, 318.)

317. (*1*) If any private street or any part thereof be not levelled, paved, metalled, flagged, channelled, sewered, drained and lighted to the satisfaction of the Corporation, they may, by written notice to the owner of such private street or the respective owners of the land fronting, adjoining or abutting upon such street or part, as the case may be, from time to time require them to level, pave, metal, flag, channel, sewer, drain and light such street or part.

(*2*) If such notice be not complied with and the Corporation, under section 510, sub-section (*2*), execute the works mentioned or referred to therein, the expenses thereby incurred shall be paid by the owner of such private street or the owners in default, in such proportion as may be settled—

(*a*) by the Corporation, or,

(*b*) in case of dispute, by the Court under section 523.

318. If any private street which conforms to the provisions of this Act referred to in section 314, sub-section (*2*), be levelled, paved, metalled, flagged, channelled, sewered, drained and lighted to the satisfaction of the Corporation, and if a majority of—

(*a*) the owners of land or buildings in such street, or

(*b*) the owners of the street, or

(*c*) the owners who have paid the expenses referred to in section 317, sub-section (*2*),

signify in writing their consent thereto, the Corporation shall declare the same, by written notice put up in any part of such street, to be a public street, and thereupon the same shall become a public street and shall vest in the Corporation:

Provided that, where a private street has been in existence for not less than thirty years and is used by the people of the locality as a thoroughfare, the Corporation may declare such street to be a public street even though it does not strictly comply with the provisions of this chapter, if—

(*a*) the owners of lands and buildings in such street, or

(*b*) the owners of the street,

signify in writing their consent thereto.

(*2*) The Corporation may from time to time prescribe a scale of fees of licensed building surveyors in respect of any class of buildings, to be made applicable in the absence of a written contract to the contrary.

Power to Corporation to decline plans, etc., made by persons other than licensed building surveyors.

323. The Corporation may decline to accept any plan, elevation or section, submitted with any application for permission to erect a new building, unless such plan, elevation or section has been prepared by, and bears the signature of, a licensed building surveyor.

Buildings generally.

324. (*1*) The Corporation may at any time give public notice of their intention to declare that, in any street, portion of a street or locality specified in the notice,—

(*a*) the elevation and construction of the frontage of all new buildings (other than huts) thereafter erected shall, in respect of their architectural features, be such as the Corporation may consider suitable to the locality, or

328. (*1*) Save with the special permission of the Corporation, no person shall use a building or a substantial part of a building erected for use as, and belonging to, any one class of buildings, as a building of any other class in such a manner that the building or part thereof so used will not be in conformity with the provisions of this Act, or of any rules or by-laws made thereunder, relating to buildings of that other class :

Provided that no change made by this Act in the classification of buildings as in force under the Calcutta Municipal Act, 1899, shall have the effect of preventing the use of a building for the purposes for which it was declared to be intended to be used at the time when the plans of such building were sanctioned. (*a*) this chapter,

(*b*) Schedule XVII, and

(*c*) any orders, rules and by-laws made under this Act,

Explanation.—No work of re-erection or re-construction which would constitute any building a new building under sub-clauses (*b*), (*c*) or (*d*) of clause (*46*) of section 3 shall, for the purposes of this section, be deemed to be an alteration of, or addition to, or any other work made or done to or upon, such building, but in the case of such re-erection or re-construction the provisions relating to the erection of new buildings as referred to in this section shall apply to the whole of the said new building.

Power to relax provisions of chapter and Schedule XVII.

332. The Corporation shall not refuse sanction to the erection of a boundary wall exceeding ten feet in height or to any addition to any boundary wall so as to make it exceed ten feet in height on the ground that such boundary wall or such addition would cause interference with an existing easement in favour of, or prevent the acquisition of an easement by, the owner of adjacent premises.

(Part V.—Chapter XXI.—Buildings,—Sections 333, 334.)

Exemptions.

333. The following buildings shall be exempted from the operation of this chapter, namely,—

(*b*) any building erected or intended to be erected by, or with the sanction of, the Corporation, for use solely as a temporary hospital for the reception and treatment of persons suffering from any dangerous disease; and

(*c*) any hoarding or like means of protection (other than a masonry wall) which the owner of any premises certifies to the Executive Officer not less than seven days after its erection to have been erected for the purpose of preventing the threatened acquisition of any easement over his own premises or any portion thereof, provided that the stability of such hoarding or other means of protection is certified by the Executive Officer.

335. The Corporation may define the external limits of any *bustee*, and may from time to time alter such limits.

336. None of the powers conferred by any of the following sections of this chapter shall be exercisable in respect of—

(*a*) any *bustee* the total area of which, as comprised within the limits defined under section 335, is less than two *bighas*, or

(*b*) any masonry building existing in a *bustee* at the time when a standard plan is approved or alignments are prescribed under section 360 for such *bustee*, as the case may be.

Improvement of bustees.

Power to Corporation to require owner of *bustee* of area between ten *cottahs* and two *bighas* to carry out certain improvements.

337. (*1*) Notwithstanding anything contained in section 336, the Corporation may, for sanitary reasons, require the owner of any *bustee* of which the total area as comprised within the limits defined under section 335 is more than ten *cottahs* but less than two *bighas*,—

(*a*) to open up and construct such passages, not exceeding twelve feet in width, between the huts, and to provide such surface drains and latrines for the use of the tenants of the *bustee*, as the Corporation may think necessary, and

(*b*) to remove the whole or any portion of a hut, provided that the owner of the hut shall be entitled to receive from the Municipal Fund such compensation calculated according to the estimated value of the structure removed, as the Corporation may determine.

(*2*) When the Corporation propose to issue a requisition in respect of any *bustee* under sub-section (*1*), they shall prepare a standard plan showing the proposed improvements, and may then, by written notice, call on the owner of the *bustee* to show cause why the *bustee* should not be improved within a date to be fixed in conformity with the said plan.

(*3*) The provisions of sections 345, 346, 347, 352, 355, 356 and 359 shall, with all necessary modifications, be deemed to apply in the case of every requisition issued under sub-section (*1*).

(*Part V.—Chapter XXII.—Bustees.—Section 339.*)

to prepare and submit a plan of the *bustee*, to the scale of twenty-five feet to the inch, showing—

(*a*) the manner in which the *bustee* should be laid out, with the huts standing in regular lines and with a free passage, in front of and behind each line, of such width as may be necessary for proper ventilation and for scavenging,

(*b*) the drains for the general use of the tenants of the *bustee*,

(*c*) the means of lighting, common water-supply, bathing arrangements (if any) and common privy accommodation to be provided for the use of the tenants,

(*d*) the streets and passages which are to be maintained for the benefit of the tenants,

(*e*) the tanks, wells and low lands which are to be filled up and the tanks which are to be conserved, and

(*f*) any other proposed improvements:

Provided that when there are two or more owners of a *bustee* the Corporation may require them to prepare and submit a joint plan of the *bustee*.

(*2*) The streets referred to in clause (*d*) of sub-section (*1*) shall be not less than sixteen feet wide and ordinarily not more than two hundred feet apart, and the passages referred to in that clause shall be not less than twelve feet wide.

(*3*) If there is any masonry building within the limits of the *bustee*, the said plan shall be so prepared as clearly to distinguish such building and the land pertaining to it.

(*4*) The said plan—

(*i*) shall be considered by the Corporation and modified in such manner as may be required, and

(*ii*) shall, when approved by them, be deemed to be the standard plan of the *bustee*.

Preparation of standard plan by Corporation where owners disagree, etc.

339. (*1*) If, after the service of a notice under section 338 on the owners of any *bustee*, such owners—

(*a*) do not agree among themselves in the preparation of a plan as required by such notice, or

(*b*) for any reason prefer to have a plan prepared for them by the Corporation, or

(*c*) fail to comply within sixty days with such notice,

the Corporation shall cause the *bustee* to be inspected by two persons appointed in that behalf, one of whom shall be a medical officer of the Corporation or a person holding the diploma of Public Health or such other qualification as may be prescribed by the Corporation in this behalf, and the other an

(Part V.—Chapter XXII.—Bustees.—Sections 340—343.)

engineer, and the Corporation on receipt of their report shall cause a plan to be prepared to the scale and showing the particulars prescribed in the said section.

(*2*) When a plan has been prepared under sub-section (*1*), the Corporation shall fix a day for the hearing of objections (if any) made by or on behalf of the owners of the *bustee* and the owners of huts or masonry buildings therein,

and, after hearing such objections, may, in their discretion, approve such plan either with or without modifications.

(*3*) Every plan of a *bustee* approved under sub-section (*2*) shall be deemed to be the standard plan of the *bustee*.

(*4*) When the Corporation cause a plan to be prepared under sub-section (*1*), they may charge the said owners therefor at a rate not exceeding five rupees *per bigha*.

Suspension of building pending preparation of standard plan

340. When the owner of a *bustee* has been required under section 338 to prepare a plan, no new building which is a hut shall be erected and no hut shall be added to within the *bustee* until a plan has been prepared and approved under that section or under section 339.

Prohibition of building contrary to standard plan

341. When a standard plan has been approved for any *bustee* under section 338 or section 339, no new building which is a hut shall be erected and no hut shall be added to in such *bustee* unless the hut, or the portion to be added, as the case may be, occupies a site, or portion of a site, marked in the standard plan as the site for a hut.

Power to Corporation to require removal of hut not in conformity with standard plan

342. (*1*) When a standard plan has been approved for any *bustee* under section 338 or section 339, the Corporation may at any time, by written notice, require the owner of any hut in such *bustee*, which is not in conformity with the standard plan, to remove the whole or any portion of such hut.

(*2*) When a hut or portion of a hut has been removed in compliance with a requisition made under sub-section (*1*), the owner thereof shall be entitled to receive from the Municipal Fund such compensation calculated according to the estimated value of the structure removed, less the value of the materials, if the owner elects to take these, as the Corporation may determine.

Power to Corporation to require carrying out of other improvements in conformity with standard plan

343. (*1*) The Corporation may at any time, by written notice, require the owner of any *bustee* for which a standard plan has been prepared under section 338 or section 339—

(*a*) to construct the drains, privies, streets and passages, provide the means of lighting, water-supply and common bathing arrangements, and carry out the other improvements shown in such plan, so far as may be practicable having regard to the existing arrangement of the huts, and

(*b*) if any tank, well or low land is shown in such plan as to be conserved or filled up, to conserve or fill up such tank, well or low land.

(Part V.—Chapter XXII.—Bustees.—Section 344.)

(2) Until such notice is complied with, the Corporation may refuse to sanction the erection of a new building which is a hut or the making of any addition to any hut in the *bustee*.

Inspection, report and preparation of standard plan by registered medical practitioner and engineer, in cases requiring expedition

344. (1) If it appears to the Corporation that any *bustee*,—

(a) by reason of the manner in which the huts are crowded together, or

(b) for any other reason,

is in such an unhealthy condition that the procedure provided by the foregoing sections of this chapter would be too dilatory to meet the emergency,

they may, after giving notice to the owners of the *bustee*, cause the *bustee* to be inspected by two persons appointed in that behalf, one of whom shall be a medical officer of the Corporation or a person holding the diploma of Public Health or having such other qualifications as may be prescribed by the Corporation in this behalf, and the other an engineer. In appointing such persons the Corporation shall consider any proposals made by the owner of the *bustee* in this connection.

(2) The said persons shall forthwith—

(a) make, sign and submit a written report on the sanitary condition of the *bustee*, and

(b) annex to the report a plan approved by them as a proper standard plan of such *bustee*, and

(c) certify—

(i) which of the improvements required to bring the *bustee* into conformity with such plan should be taken in hand forthwith in consequence of the unhealthy condition of the *bustee*, and

(ii) which (if any) of such improvements should be deferred for action under the foregoing sections of this chapter.

(3) The improvements referred to in sub-clauses (i) and (ii) of sub-section (2) shall be specified in two separate schedules which shall be annexed to the report and called Schedule A and Schedule B, respectively.

(4) The said schedules shall clearly indicate—

(a) the huts which should wholly or in part be removed,

(b) the streets, passages and drains which should be constructed,

(c) the means of lighting, water-supply, common bathing arrangements and common privy accommodation to be provided for the use of the tenants,

(Part V.—Chapter XXII.—Bustees.—Sections 345—347.)

(*d*) the tanks, wells and low lands which should be filled up,

(*e*) any other improvements which the two persons appointed under sub-section (*1*) may consider necessary in order to remove or abate the unhealthy condition of the *bustee*, and

(*f*) any masonry building within the *bustee*, and any land pertaining to such building which it may be necessary to purchase or acquire for the purpose of making such streets or passages, or effecting any such improvement.

(*5*) A report (together with the schedules annexed thereto) made and signed under this section by any two persons appointed under sub-section (*1*) shall be sufficient evidence of the result of such inspection.

Approval by Corporation of standard plan and schedules annexed to such report.

345. (*1*) The Corporation shall consider every report (together with the plan and Schedules A and B annexed thereto) made under section 344, and, after hearing the objections (if any) of the owner of the *bustee* in respect of which the report has been made, and of any owner of any hut which is required to be demolished or altered and of the owner of any masonry building which is to be dealt with under sub-section (*4*) of section 344, may approve such plan and schedules after making such modifications (if any) therein as they may think fit.

(*2*) The plan so approved shall be deemed to be the standard plan of such *bustee*.

Power to Corporation to require owners or occupiers to carry out improvements specified in Schedule A.

346. When Schedule A, annexed to a report made under section 344, has been approved under section 345, the Corporation may cause a written notice to be served upon—

(*a*) the owners of the huts referred to in such Schedule A, or

(*b*) the owners of the *bustee* in which such huts are situated,

requiring them to carry out all or any of the improvements specified in that schedule or any portion of such improvements.

Payment of expenses incurred in carrying out improvements.

347. When any improvements required by a notice under section 346 are carried out by the Corporation under section 510, all expenses incurred thereby, including such reasonable compensation as the Corporation may think fit to pay to the owners or occupiers of huts removed,

shall be paid by the owner of the *bustee* to the Corporation and shall constitute a charge upon such *bustee* :

Provided that, notwithstanding anything contained in section 516, if it appears to the Corporation that any such owner is unable, by reason of poverty, to pay such expenses or any portion thereof, in the case of expenses relating to work which should, in

(*Part V.—Chapter XXII.—Bustees.—Sections 348—351.*)

the opinion of the Corporation, have been done by the owners or occupiers of huts within the *bustee*, they may order the same or any portion thereof to be paid out of the Municipal Fund, and in the case of expenses which should be paid by the owner of the *bustee*, they may order the same or any portion thereof to be advanced out of the Municipal Fund, but thereafter to constitute a charge upon such *bustee*.

Disposal by the Corporation of materials of huts pulled down.

348. (*1*) If, in carrying out any improvement as provided in section 346, the Corporation cause any hut or portion of a hut to be pulled down, they shall—

(*a*) cause the materials of such hut or portion of a hut to be given to the owner of the hut if such owner elects to take them; or

(*b*) if the owner does not elect to take the materials, or if the owner be unknown or the title to the hut be disputed, cause such materials to be sold, and hold in deposit the proceeds of the sale, together with any sum awarded as compensation under section 347.

(*2*) Any amount held in deposit under clause (*b*) of sub-section (*1*) shall be so held by the Corporation until any person obtains an order from a competent Court for the payment to him of such amount.

(*3*) A Court of Small Causes shall be deemed to be a competent Court for the purposes of this section.

Power to Corporation to purchase or acquire masonry buildings or land in *bustee*.

349. The Corporation may, at any time after the receipt of a report made under section 344, purchase or acquire—

(*a*) any masonry building within such *bustee*, or

(*b*) any land appertaining to such building, or

(*c*) any such building, together with the land appertaining thereto or any portion thereof,

which is mentioned in that behalf in Schedule A or Schedule B annexed to such report.

Application of sections 341 to 343 to *bustee* for which standard plan has been approved under section 345

350. When a standard plan of a *bustee*, and any Schedule B, annexed to the report made under section 344 with respect to that *bustee*, have been approved under section 345—

(*a*) the provisions of section 341 shall apply to such *bustee*, and

(*b*) the provisions of sections 342 and 343 shall apply to such *bustee* in respect of the improvements indicated in that schedule as provided in section 344, sub-section (*4*).

Alternative power to Corporation to make standard plan, to purchase or acquire *bustee*, and to carry out improvements themselves or through purchaser or lessee.

351. (*1*) Notwithstanding anything contained in sections 345 to 350, the Corporation may, after receipt of a report made under section 344 with respect to any *bustee*, and after giving an opportunity of being heard to the owner thereof, pass a resolution to the effect that the *bustee* is an unhealthy area and that, in their opinion, the purchase or acquisition of the *bustee*, or of any portion thereof, is necessary for

(Part V.—Chapter XXII.—Bustees.—Section 352.)

the purpose of making the improvements referred to in the said report.

(*2*) When any such resolution has been passed, the Corporation shall make a plan for the improvement of the said *bustee* or portion thereof, together with such estimates as may be necessary for a due understanding of the same, and may then purchase or acquire the said *bustee* or portion thereof, and such plan shall be deemed to be the standard plan of the *bustee*.

(*3*) When any *bustee* or portion of a *bustee* has been so purchased or acquired, the Corporation shall, as soon as is reasonably practicable, either—

(*a*) sell or let the same or part thereof to any person for the purpose and under the condition that he will, as respects the land so sold or leased to him, carry out the improvements shown in such standard plan, or

(*b*) themselves bring the said *bustee* or portion thereof or any part of the same which has not been sold or leased under clause (*a*), into conformity with such standard plan, or

(*c*) proceed under the provisions of section 468 to take measures for the erection of sanitary dwellings for the working classes or for the poorer classes, or for both, on such land.

(*4*) Whenever the Corporation decide to sell or let under sub-section (*3*) any *bustee* or portion thereof so purchased or acquired from any person, they shall offer to the said person or his heirs, executors or administrators a prior right to purchase or take on lease such *bustee* when disposing of the same under sub-section (*3*), if such person applies in this behalf, at such rate and on such terms and conditions as may be fixed by the Corporation, if the Corporation consider that such a right can be given without detriment to the carrying out of the purposes of this Act. If more than one person applies to the Corporation that a *bustee* or portion thereof be sold or let to him, the Corporation shall determine which of such persons has the prior right to take such *bustee* under this section.

(*5*) Whenever action is taken under clause (*a*) of sub-section (*3*), the provisions of sub-section (*2*) or sub-section (*3*) of section 471, as the case may be, shall be applicable.

Proportions of area of *bustee* to be shown in standard plan as streets, passages and open lands.

352. (*1*) No standard plan approved for a *bustee* under this chapter shall, without the consent of the owner thereof, show more than—

(*a*) one-fourth of the whole area of such *bustee* as streets or passages, or

(Part V.—Chapter XVII.—Bustees.—Sections 353, 354.)

(*b*) one-third of such area as open lands not to be built upon, whether such open lands be common ground, streets, passages or spaces behind a line of huts.

(*2*) In calculating the said proportions of one-fourth and one-third of any such area, no tank situated therein that has not been filled up shall be taken into account.

Regulation of plots by standard plan, and compensation for adjustment of plots.

353. (*1*) When the land included in a *bustee* is owned by more owners than one, each owning one or more separate plots of such land, the standard plan approved under this chapter for such *bustee* shall, as far as practicable, provide—

(*a*) for one or more huts being completely contained in each such plot, and

(*b*) for such proportion of each such plot being taken for streets, passages and open land as is specified in section 352.

(*2*) If a greater proportion of any one such plot than the proportion specified in section 352 is so taken, such standard plan shall indicate—

(*i*) the compensation which shall be payable to the owner of such plot, and

(*ii*) the persons who are liable to pay such compensation by reason of their benefiting by such greater proportion having been taken.

(*3*) If no person can equitably be called upon to pay such compensation, the same shall be paid by the Corporation.

(*4*) Any compensation payable under this section to the owner of any land in a *bustee* shall not be paid until such land has been brought into complete conformity with the standard plan.

Streets and passages shown in standard plan, if not public streets, to remain private.

354. (*1*) Every street or passage in a *bustee* which is shown in the standard plan approved under this chapter for that *bustee* and which is not already a public street, shall, unless the Corporation and the owners of the land on which such street or passage is situated otherwise consent as provided in section 318, be deemed to be a private street; and the portion thereof which falls on the land of each owner shall belong to such owner:

Provided that any portion of any such street or passage which is situated on land purchased or acquired by the Corporation under section 349 shall remain the property of the Corporation.

(*2*) Every such private street shall, at all times, be kept open for scavenging purposes and for all other purposes of this Act in such manner as the Corporation may require, and shall also be kept open for the use of all the tenants of the *bustee*:

Provided that, notwithstanding anything contained in the Indian Limitation Act, 1908, no use of any such street shall, by reason of any lapse of time, be held to confer a right of way on the public so as to bring the street within the definition of a "public street", in clause (*57*) of section 3. IX of 1908

(Part V.—Chapter XVII.—Bustees.—Sections 355-357.)

Bathing arrangements and privy accommodation in *bustee*, as shown in standard plan, to be kept open for use of tenants.

355. The bathing arrangements and privy accommodation in a *bustee*, which are shown in the standard plan approved under this chapter for such *bustee* as being common to the use of all or some of the tenants of the *bustee*, shall at all times be kept available for the use of such tenants:

Provided that, notwithstanding anything contained in the Indian Limitation Act, 1908, if at any time the land on which any such bathing arrangements or privy accommodation are provided ceases to form part of such *bustee*, no such use shall, by reason of any lapse of time, be held to confer any right on any person so as prejudicially to affect the rights of the owner of such land. IX of 1908.

Owner of land in *bustee* to maintain certain conveniences on his land.

356. (*1*) The owner of any land in a *bustee*, for which a standard plan has been approved under this chapter, shall maintain in proper order and repair, to the satisfaction of the Corporation, such streets, passages, drains, common bathing arrangements, common privy accommodation, means of lighting, means of water-supply and other works on such land as may be shown in the plan.

(*2*) The Corporation may, at any time, cause a written notice to be served upon such owner requiring him so to maintain such streets, passages, drains, common bathing arrangements, common privy accommodation, means of lighting, means of water-supply and other works:

Provided that any convenience made by the owner of a hut for his own use shall, subject to such notice as aforesaid, be maintained by him and not by the owner of the *bustee*.

(*3*) If the Corporation are satisfied that any street, passage, drain, bathing arrangements, privy accommodation, means of water-supply or other work or any portion thereof, has been damaged by any tenant or tenants of the *bustee*, the Corporation may, if they think it desirable to do so, call upon such tenant or any one or more of such tenants by a written notice to repair such street, passage, drain, bathing arrangements, privy accommodation, means of water-supply or other work or portion thereof.

Rights of land-owner and hut-owner, respectively, over streets, land and drains shown in standard plan.

357. (*1*) The owner of any land in a *bustee*, for which a standard plan has been approved under this chapter, shall be deemed to be the occupier of—

(*a*) all the streets, passages and common ground,

(*b*) all drains provided for the use of more than one hut, and

(*c*) the common bathing arrangements, common privies and means of lighting the *bustee*,

on such land, so far as the same are constructed in accordance with the standard plan.

(Part V.—Chapter XXII.—Bustees.—Sections 358, 359.)

(2) The owner of any hut in such *bustee* shall be deemed to be the occupier of—

(i) the land on which such hut stands,

(ii) the open space behind such hut which appertains thereto, and

(iii) every drain, privy, means of lighting or water connection (if any) provided for the sole use of such hut.

Bustee when to be deemed a remodelled *bustee*.

358. When a *bustee* has been brought into conformity with the standard plan approved under this chapter for such *bustee*, it shall be deemed to be a remodelled *bustee*.

Power to owner to take land out of the category of *bustee* in certain cases.

359. (1) The owner of any land included in a *bustee* and bearing a separate number in the assessment-book may, at any time, whether a standard plan for the *bustee* has been prepared under this chapter or not, send a written notice to the Corporation that he intends to remove all the huts standing on such land:

Provided that the receipt of any such notice by the Corporation shall not be a bar to the approval by the Corporation, under this chapter, of a standard plan of such *bustee*.

(2) From the date of such notice no application shall be entertained for erecting on such land any new building which is a hut or adding to any hut standing thereon.

(3) Such owner shall, within six months after the date of such notice, or within such further time as the Corporation may from time to time allow, remove all huts standing on such land; and, if he does not do so, the notice shall be deemed to be cancelled.

(4) When all such huts have been so removed, such land shall, according to its situation, either—

(i) be altogether excluded from the limits of the *bustee*, or

(ii) be shown in a standard plan approved for the *bustee* under this chapter, as not being a part of such *bustee*:

Provided that, if in the standard plan any street or passage is shown on such land, the provisions of sections 343, 346, 350, 354, 356 and 357 shall, with all necessary modifications, be deemed to apply to such street or passage unless the Corporation otherwise direct.

(5) If, after all the huts standing on any land have been removed under sub-section (3), any application is received for erecting any hut on such land, the Corporation may, by written notice, require the owner of the land to carry out such improvements included in the standard plan as they may think fit.

(6) When all the huts standing on any land within a *bustee* have been removed under sub-section (3), the Corporation may either—

(a) cancel the standard plan (if any) already approved, under this chapter, for such *bustee*, or

(Part V.—Chapter XVII.—Bustees.—Sections 360, 361.)

(*b*) modify such plan, after hearing the objections (if any) of any owner of land included in such *bustee*.

(*7*) Where any land, formerly included in a *bustee*, ceases to be so included, and where any street or passage was shown on such land in the standard plan and where on such land ceasing to be so included the Corporation do not consider it to be practicable or do not consider it to be expedient to change the alignment of such street they shall, in applying the proviso to sub-section (*4*) to such street, compensate the owner of such land for any area that is included in such street which is in excess of one-seventh of the entire area of the land which ceases to be included in the *bustee*.

Bustee streets.

Power to Corporation to prescribe alignments for *bustee* streets

360. (*1*) In any *bustee*, in respect of which a standard plan has not been prepared, or in any area in which it appears to the Corporation that huts are likely to be erected, the Corporation may, after hearing the objections, if any, of any owner of land in such *bustee*, prescribe alignments, not more than sixteen feet in width, for such private streets as they may think fit.

(*2*) When the land within such *bustee* or area is owned by more owners than one, each owning one or more separate plots of such land, such alignments shall, as far as practicable, be so prescribed as not to occupy, within any such plot, more than one-fifth of the area thereof and shall not ordinarily be less than two hundred and fifty feet apart.

(*3*) If, in any such plot, more than one-fifth of the area thereof is occupied by such alignments, the Corporation shall pay reasonable compensation to the owner of the plot:

Provided that no such compensation shall be paid in respect of any such plot as long as any hut or other structure other than a masonry building is left standing within any such alignment in the plot.

(*4*) No hut or portion of a hut shall be erected within any alignment prescribed under sub-section (*1*).

(*5*) The provisions of section 351 shall, with all necessary modifications, be deemed to apply to every street the alignment for which has been prescribed under this section.

Power to Corporation to require removal of existing huts within street or hut alignment in *bustee*.

361. (*1*) In any *bustee*, at any time after the expiration of seven years from the time when any alignment has been prescribed—

(*a*) for a street under section 360, or

(*b*) for huts under rule 66 of Schedule XVII,

the Corporation may, by written notice, require the owner of the land or the owners or occupiers of

(Part V.—Chapter XXII.—Bustees.—Section 362.)

existing huts to remove such huts or portions thereof as fall—

(*i*) within any such prescribed street alignment, or

(*ii*) within six feet on either side of any such prescribed hut alignment,

as the case may be.

(*2*) When a hut has been removed under the provisions of sub-section (*1*), the Corporation shall pay to the owner thereof such compensation as they may consider to be reasonable, but such compensation shall in no case exceed the value of the hut less the value of the materials thereof.

Power to Corporation to require space to be kept between masonry building in *bustee* and centre line of *bustee* street.

362. Any person who erects a masonry building—

(*a*) in any *bustee* in respect of which a standard plan has been approved under sections 338, 339 or 345, or

(*b*) in any *bustee* or area in respect of which alignments for streets have been prescribed under section 360,

shall, if so required by written notice issued by the Corporation, leave a clear space of fifteen feet between the centre line of any street or passage shown in such plan, or of any street the alignment for which has been so prescribed, as the case may be, and the nearest part of such building.

(*Part V.*)

CHAPTER XXIII.

Demolition or alteration of building work unlawfully commenced, carried on or completed.

363. (*1*) If the Corporation are satisfied—

(*1*) that the erection of any new building—

(*a*) has been commenced without obtaining the written permission of the Corporation, or

(*b*) is being carried on or has been completed otherwise than in accordance with the particulars on which such permission was based, or

(*c*) is being carried on or has been completed in breach of any provision contained in this Act or in any rules or by-laws made thereunder, or of any direction or requisition lawfully given or made under this Act or under such rules or by-laws, or

(*2*) that any alteration of, or addition to, any building or any other work made or done for any purpose in, to or upon any building, has been commenced or is being carried on or has been completed in breach of, or otherwise than in accordance with, any sanction granted under sections 330, 340 or 341, or

(*3*) that any alterations required by any notice issued under rule 22 of Schedule XVII have not been duly made,

they may, after giving the owner of such building an opportunity of being heard, apply to a Magistrate, and such Magistrate may make an order directing that such erection, alteration, addition or other work, as the case may be, or so much thereof as has been executed unlawfully as mentioned in clauses (*1*), (*2*) or (*3*),

or that any structure, specified under the *Explanation* to clause (*d*) of rule 53, or the *Explanation* to clause (*iv*) of rule 81, of Schedule XVII as a structure to be demolished or altered, shall—

(*i*) be demolished by the owner thereof or altered by him in accordance with the order of the Magistrate to the satisfaction of the Corporation, as the case may require, or

(*ii*) be demolished or altered by the Corporation at the expense of the said owner :

Provided that the Magistrate—

(*a*) shall not make any order under this section without giving the owner and occupier of the building to be so demolished or altered full opportunity of adducing evidence and of being heard in his defence, and

(Part V.—Chapter XXIII.—Demolition, alteration and stopping of unlawful work.—Section 364.)

(*b*) may make any such order notwithstanding the fact that a valuation of such building has been made by the Executive Officer under Chapter X for the assessment of the consolidated rate:

Provided that where the Corporation have instituted proceedings under section 493, no application shall be made under this section.

(*2*) Notwithstanding anything contained in sub-section (*1*), no proceedings shall be instituted thereunder in respect of any work which has been done more than five years before the institution of such proceedings:

Provided that the onus of proving that the work was done more than five years previously shall lie on the owner.

364. (*1*) In any of the following cases, namely,—

(*1*) if, within the period prescribed in any notice issued under section 299, sub-section (*1*), requiring the removal or alteration of a verandah, platform or other similar structure or a fixture, the same be not duly removed or altered, or

(*2*) if the owner of any building erected or added to between a street alignment and the building-line fails to remove such building or addition when called upon by the Corporation to do so under section 303, sub-section (*3*), or

(*3*) if any person who makes any additions to a building in pursuance of an agreement executed under the proviso to sub-section (*1*) of section 303, fails to remove such additions when called upon by the Corporation to do so, or

(*4*) if the owner of any building erected or added to under the provisions of section 309 fails to remove such building or addition when called upon to do so, or

(*5*) if the owner of any building, which is unfit for human habitation, fails to demolish such building when required to do so under section 382, sub-section (*2*), or

(*6*) if any privy or urinal be placed in contravention of rule 21 or rule 22, sub-rule (*1*), of Schedule XV, or

(*7*) if, within the period prescribed in any notice issued under rule 2, sub-rule (*5*), of Schedule XVI, requiring the owner or occupier of a building to comply with any condition on which the erection of any verandah or other projection was permitted, such condition is not complied with, or

(Part V.—Chapter XXIII.—Demolition, alteration and stopping of unlawful work.—Section 365.)

(*8*) if, within the period prescribed in any notice issued under rule 2, sub-rule (*6*), of Schedule XVI, requiring the owner or occupier of a building to remove a verandah or other projection, the same be not duly removed, or

(*9*) if, within the period prescribed in any notice issued under rule 7, sub-rule (*2*), of Schedule XVII, requiring the owner of a building to remove or alter an external roof or wall made of inflammable material, the same be not duly removed or altered, or

(*10*) if any owners or occupiers neglect to execute any works or to take any measures required by any notice affixed under rule 6, sub-rule (*1*), of Schedule XVIII,

the Corporation may apply to a Magistrate, and such Magistrate may make an order directing that the projection, building, block of buildings, verandah, platform, fixture, additions, roof, wall, privy or urinal, as the case may be, shall—

(*a*) be demolished by the owner thereof or altered by him to the satisfaction of the Corporation, or

(*b*) be demolished or altered by the Corporation at the expense of such owner:

Provided that, before making such application, the Corporation shall give the owner or occupier an opportunity of being heard on his behalf:

Provided also that the Magistrate—

(*i*) shall not make any order under this section without giving the owner and occupier of the structure to be so demolished or altered full opportunity of adducing evidence and of being heard in his defence, and

(*ii*) may make any such order notwithstanding the fact that a valuation of such building has been made by the Executive Officer under Chapter X for the assessment of the consolidated rate:

365. (*1*) In any case in which the erection of a new building, or any other work referred to in section 363, has been commenced, or is being carried on unlawfully as mentioned in that section, the Corporation may, by written notice, require the person carrying on such erection or other unlawful work to stop the same, pending the decision of a Magistrate on an application to be made to him under that section.

(*2*) If any notice issued under sub-section (*1*) is not duly complied with, the Corporation may, with the assistance of the police, if necessary, take such steps as they may deem needful in order to stop the continuance of the unlawful work.

(Part V.—Chapter XXIII.—Demolition, alteration and stopping of unlawful work.—Section 365.)

(3) If it appears to the Corporation that it is necessary, in order to prevent the continuation of the unlawful work, to depute any police or municipal officer to watch the premises, they may require the person to whom the said notice was addressed to bear the cost of providing the same.

(*l*) Pending the decision of the Magistrate in accordance with sub-section (*l*), the Corporation may hear the person concerned and thereupon determine whether their order for stopping the work shall remain in force or shall be suspended until the Magistrate makes his decision.

(Part V.)

CHAPTER XXVI.

INSPECTION AND REGULATION OF PREMISES, AND OF FACTORIES, TRADES AND PLACES OF PUBLIC RESORT.

Premises generally.

Inspection and regulation of premises.

380. Subject to the provisions of this Act, land and buildings shall respectively be inspected, cleansed, secured, repaired, drained, or otherwise regulated in accordance with the rules contained in Schedule XVIII.

Procedure in case of buildings deemed unfit for human habitation.

381. (*1*) If, for any reason, any building or portion of a building intended for, or used as, a dwelling-place appears to the Corporation to be unfit for human habitation, they may require the owner or occupier of such building to make such alterations as they think necessary in the building in order to make it fit for human habitation, if they consider that this can be done; but whether they think it can be made fit for human habitation or not, they may, in either case, after giving the owner or occupier an opportunity of being heard, apply to a Magistrate to prohibit the further use of such building or portion thereof for such purpose;

and the Magistrate shall serve a notice on such owner or occupier so as to give him an opportunity of being heard in the Court, and, after such inquiry as he thinks fit to make, may, by written order, prohibit the further use thereof, or may pass such other order as he may deem just and proper.

(*2*) When any such prohibition has been made, the Corporation may—

(*i*) inspect such building by day or by night, and

(*ii*) take such order as may be necessary to preclude the further use of the same, or of the portion specified in the prohibition, as a human habitation.

(*3*) When any such prohibition has been made, no owner or occupier of such building shall use, or suffer the same, or the portion specified in the prohibition, to be used for human habitation until—

(*a*) the Executive Officer certifies in writing that the causes rendering it unfit for human habitation have been removed to his satisfaction, or

(*b*) a Magistrate, by written order, withdraws the prohibition.

(*4*) The Corporation shall prepare and maintain at the Municipal office a list of buildings in respect of which the Magistrate has passed an order under sub-section (*1*), and such list shall contain such particulars as to the action taken by the Corporation or the owner in pursuance of such order or otherwise, as the Executive Officer shall think fit and shall be open to inspection by the public free of charge.

(Part V.—Chapter XXVI.—Inspection and regulation of premises, and of factories, trades and places of public resort.—Sections 382, 383.)

Power to Corporation to require demolition of, or execution of work on, building unfit for human habitation

382. (*1*) When a Magistrate has prohibited the use of a building for human habitation under section 381 and such prohibition has been in force for three months, the Corporation shall take into consideration the question of the demolition of such building,

and shall give notice of the time (being some time not less than one month after the service of the notice) and place at which such question will be considered to the owner and to the occupier (if any) of the building,

and the said owner and occupier shall be entitled to be heard when the question is so taken into consideration.

(*2*) If, upon such consideration, the Corporation are of opinion that the building has not been rendered fit for human habitation, and that the necessary steps are not being taken with all due diligence to render it so fit,

they shall cause a written notice to be served on the said owner and occupier and also to be put on some conspicuous part of such building, requiring such owner and occupier to demolish the building or any portion thereof, as the case may be, or to execute such work as in the opinion of the Corporation may be necessary to render the building fit for human habitation.

(*3*) If such owner or occupier undertakes to execute with due diligence the work necessary to render the building fit for human habitation, and the Corporation consider that it can be so rendered fit for human habitation,

the Corporation may postpone the operation of the said notice for such time as they think sufficient for the purpose of giving the said owner or occupier an opportunity of executing the necessary work.

Power to Corporation to call for statement of accommodation.

383. (*1*) The owner of any building shall, within a period of a fortnight after receipt of a written notice from the Corporation requiring him to do so, submit to the Corporation a signed statement of the following particulars with respect to such building or any part thereof, namely,—

(*ii*) the total number of adults and the total number of children occupying each room used for sleeping.

384. (*1*) If it comes to the knowledge of the Corporation from a statement received under section 383, or after an inspection made under rule 1 of Schedule XVIII, or in any other way, that a dwelling-house, or a public building or hut which is used as a dwelling-place, or any room in any such house, public building or hut, is so overcrowded as to endanger the health of the inmates thereof, they may require the owner to abate such overcrowding in the manner specified in such requisition. After giving the owner an opportunity of being heard in regard to such requisition, the Corporation may direct him within such time as they may fix to take such measures as they think fit to abate such overcrowding. If the owner fails to take such measures, the Corporation may apply to the Magistrate to abate such overcrowding.

The Magistrate, after such inquiry as he thinks fit to make, may, by written order, require the owner of the building or room, within such time as the Magistrate may prescribe in the said order, to abate such overcrowding by reducing the number of lodgers, tenants or other inmates of the building or room, or may pass such other order as he may deem just and proper.

Every such order shall be binding and operative on the owner as well as on the occupier, and every occupier shall, on the written requisition of the Corporation informing him of the order, be bound to vacate the same within such time as may be specified in such requisition.

(*2*) If the owner of any building or room referred to in sub-section (*1*) has sub-let the same, the landlord of the lodgers, tenants or other actual inmates of the same shall, for the purposes of this section, be deemed to be the owner of the building or room.

(Part V.—Chapter XXVI.—Inspection and regulation of premises, and of factories, trades and places of public resort.—Sections 386, 387.)

(*2*) The Corporation may refuse to give such permission, if they are of opinion that the establishment, alteration, enlargement or extension of such factory, workshop or workplace in the proposed position would be objectionable by reason of the density of the population in the neighbourhood thereof, or would be a nuisance to the inhabitants of the neighbourhood.

Premises not to be used for certain purposes without a license.

386. (*1*) No person shall use or permit to be used any premises for any of the following purposes without or otherwise than in conformity with the terms of a license granted by the Corporation in this behalf, namely,—

(Part V.—Chapter XXVI.—Inspection and regulation of premises, and of factories, trades and places of public resort.—Sections 388, 389.)

(2) No objections to any such declaration shall be received after a period of one month from the publication of such notice.

(3) The Corporation shall consider all objections received within the said period, giving any person affected by the said notice an opportunity of being heard by them during such consideration, and may thereupon make a declaration in accordance with the notice published under sub-section (1), with such modifications (if any) as they may think fit but not so as to extend its application.

(4) Every such declaration shall be published in the *Calcutta Gazette*, and in such other manner as the Corporation may determine, and shall take effect from the date of such publication in the *Calcutta Gazette*.

(5) No person shall in any area specified in any such declaration use any premises for any of the said purposes.

(3) If, upon such examination, it appears that sub-section (1) has been contravened by reason of anything contained in or proceeding from the said works, pipes or conduits, the expenses of such laying open and examination, and of any measure which the Corporation, in their discretion, may require to be adopted for the discontinuance of the cause of such contravention, shall be paid by the owner of the said works, pipes or conduits, or by the person who has the

418. (1) The Corporation shall make provision for the constant and vigilant inspection of all animals, food and drugs intended for human consumption which are in course of transit or are exposed or hawked about for sale or deposited in or brought to any place for the purpose of sale or of preparation for sale,

and shall also make similar provision for the inspection, during the process of manufacture, of any such food or drug.

(2) If, as a result of such inspection as is provided for in sub-section (1), a prosecution is instituted under this chapter, then the burden of proving that any such animal, food or drug was not exposed or hawked about or deposited or brought for sale or for preparation for sale, or was not intended for human consumption, shall rest with the party charged.

Power to Health Officer to seize animals, etc., which are diseased, etc

419. (1) The Health Officer, or any person authorized by him in this behalf, may, at any time by day or by night, inspect and examine any animal, food, or drug referred to in section 418 and any utensil or vessel used for preparing, manufacturing or containing any such food or drug.

(Part V.—Chapter XXVIII.—Food and drugs.—Sections 420, 421.)

to be unsound, unwholesome, or unfit for human food or for medicine, as the case may be, or to be adulterated, or if any such utensil or vessel is of such kind or in such state as to render any food or drug prepared, manufactured, or contained therein unwholesome or unfit for human food, or for medicine, as the case may be,

he may seize and carry away such animal, food, drug, utensil, or vessel, in order that the same may be dealt with as hereinafter in this chapter provided.

(*2*) If it appears to the Magistrate that any such animal is diseased, or that any such food or drug is unsound, unwholesome, or unfit for human food, or for medicine, as the case may be, or is adulterated, or that any such utensil or vessel is of such kind or in such state as is mentioned in section 419, sub-section (*2*), or is used for preparing, manufacturing or containing such food or drug, he shall cause the same to be destroyed, at the expense of the person in whose possession it was at the time of its seizure or to be otherwise disposed of by the Corporation so as not to be capable of being used as human food or medicine.

(Part V.—Chapter XXVIII.—Food and drugs.—Sections 422—424.)

(3) If it appears to the Magistrate that any such animal is not diseased or that any such food or drug is not unsound, unwholesome, or unfit for human food, or for medicine, as the case may be, or is not adulterated, or that any such utensil or vessel is not used for preparing, manufacturing, or containing the same, the person from whose shop or place the animal, food, drug, utensil, or vessel was taken shall be entitled to have it restored to him, and it shall be in the discretion of the Magistrate to award him such compensation, not exceeding the actual loss which he has sustained, as the Magistrate may think proper.

Analysis of food and drugs.

Power to Local Government to declare normal constituents of any article of food or drug.

422. The Local Government may declare the normal constituents of any article of food or any drug and may determine, by rules in this behalf, what deficiency in any of those constituents, or what addition of extraneous matter or proportion of water in a sample of any article of food or drug, shall, for the purposes of this Act, raise a presumption until the contrary is proved that the article of food or drug is not genuine or is injurious to health; and a public analyst shall have regard to such rules in certifying the result of an analysis under this Act.

Power of purchaser to have article of food or drug analysed.

423. Any purchaser of an article of food or drug shall be entitled, on payment of such fee as the Corporation may prescribe, to have such article analysed by a public analyst and to receive from him a certificate in the form prescribed in Schedule XX to this Act, of the result of his analysis.

424. (1) If the Health Officer, or any person authorized by him in this behalf, requires the sale to him of any food or drug exposed or intended for sale, and tenders the price for a quantity not more than is reasonably requisite for division and disposal under sub-sections (4) and (5), any person in possession of or exposing the same for sale shall be bound to sell such quantity.

(2) The Health Officer, or any person authorized by him in this behalf, may require, on tendering the price for it, the sale to him during the process of manufacture, of any quantity of—

(i) any food, or

(ii) any drug, or

(iii) any ingredients used in the manufacture of any food or drug,

not being more than is reasonably requisite for division and disposal under sub-section (4) and sub-section (5), and any person in possession of the said food, drug or ingredients shall be bound to sell such quantity.

(3) The Health Officer, or any person authorized by him in this behalf, may likewise require the surrender to himself, for the purpose of analysis, of such quantity as is reasonably requisite for such process,

(Part V.—Chapter XXVIII.—Food and drugs.—Sections 425, 426.)

of any food which is in course of transit in Calcutta or stored in any place in Calcutta for sale as an article for human consumption, and any person in possession of the same shall be bound to surrender such quantity;

and in every such case the price of the food so surrendered shall be payable by the Health Officer or by the person authorized by him, to the owner of the same, if claimed by such owner within one month from the date of the said surrender.

(*4*) When any sale under sub-section (*1*) or sub-section (*2*) is completed, or when any food is surrendered under sub-section (*3*), the Health Officer, or the person authorized by him in this behalf, or any purchaser who wishes to have an article of food analysed under section 423 shall forthwith notify to the seller, or his agent selling the article or the person in possession thereof, as the case may be, his intention to have the same analysed, and shall divide the article into three parts, to be then and there separated, and each part to be marked and sealed or fastened up in any manner which its nature will permit.

(*5*) The Health Officer, or the person authorized by him in this behalf, or the purchaser referred to in sub-section (*4*) shall deliver one of the said parts to the seller or his agent, shall retain another for future comparison, and may send the third to a public analyst.

Duty of public analyst to supply certificate of analysis.

425. (*1*) Every public analyst to whom any article of food has been submitted for analysis under this Act shall deliver to the person so submitting it a certificate in the form prescribed in Schedule XX to this Act, specifying the result of his analysis, and shall send a copy of the same to the Health Officer.

(*2*) Any document purporting to be such certificate signed by a public analyst shall be sufficient evidence in any inquiry, trial or proceeding under this Act of the result of such analysis:

Provided that any Court before which a case may be pending under this Act, whether exercising original, appellate, or revisional jurisdiction, may, of its own motion, or at the request either of the accused or the complainant, cause any article of food to be sent for analysis to the Director of Public Health, Bengal, or any other officer whom the Local Government may appoint in this behalf, who shall thereupon analyse the same and report the result of such analysis to the said Court, and the said report shall be admissible in evidence in such Court. (*b*) for the cleanliness of milk vessels used therein for containing milk for sale, and

(*c*) for the protection of the milk against infection or contamination.

(Part V.—Chapter XXIX.—Milk-supply.—Sections 430—432.)

Power to require dairymen to furnish list of sources of supply

430. If the Health Officer has reason to believe that any person in Calcutta is suffering or is likely to suffer from a dangerous disease attributable to milk supplied in Calcutta from any dairy situated within or without Calcutta, or that the consumption of milk from such place is likely to cause any person in Calcutta to suffer from a dangerous disease, the Health Officer may require the person supplying the milk to furnish, within a reasonable time to be fixed by the Health Officer, a complete list of all dairies from which that person's supply of milk is derived or has been derived during the last six weeks, and, if the supply or any part of it is obtained through any other person, may make a similar requisition upon him; and every person on whom any such requisition is made shall comply therewith.

431. (*1*) The Health Officer may inspect, with a qualified Veterinary Surgeon, any dairy referred to in section 130, and the milch-cattle therein, and if, on such inspection, the Health Officer is of opinion that the dangerous disease is caused or is likely to be caused from consumption of the milk supplied therefrom, he may make an order prohibiting the supply of any milk for human consumption from such dairy.

(*2*) An order made by the Health Officer under sub-section (*1*) shall be forthwith withdrawn on his being satisfied that the milk-supply has been changed or that the cause of infection has been removed.

(*3*) When an order is made under sub-section (*1*) or is withdrawn under sub-section (*2*) in respect of a dairy situated outside Calcutta, the Health Officer shall also inform the local authority within whose jurisdiction the dairy is situated.

(*4*) When an order is made under sub-section (*1*), the Health Officer may direct such milk to be boiled and permit it to be sold or used under such reasonable restrictions as he may prescribe in this behalf for food of animals, or he may cause the milk to be destroyed.

(*5*) No person shall sell or supply any milk in contravention of the provisions of this section.

(*6*) No dairyman shall be liable to an action for breach of contract if the breach be due to an order passed under this section.

432. (*1*) If, on an inspection referred to in section 131, sub-section (*1*), the Health Officer is of opinion that any milch-cattle in such dairy are suffering from a disease which is likely to cause any person consuming the milk to suffer from a dangerous disease, he may cause any such animal to be seized and may send it to a veterinary hospital for treatment.

(*2*) When any such animal has been sent to a veterinary hospital under sub-section (*1*), it shall be detained there until, in the opinion of the officer in charge of the hospital, it is cured

(Part V.—Chapter XXIV.—Milk-supply.—Sections 433, 434.)

Prohibition of use, for drinking or for other domestic purpose, of water likely to cause dangerous disease

437. (*1*) If it appears to the Health Officer that the water in any well, tank or other place is likely, if used for the purpose of drinking or for any other domestic purpose, to engender or cause the spread of any dangerous disease, he may, by public notice, prohibit the removal or use of the said water for such purpose.

(*2*) No person shall remove or use for such purpose any water in respect of which any such public notice has been issued.

Power to Health Officer to remove patient to hospital in certain cases.

Provided that all costs incurred for the removal and in the treatment of any such patient may be borne by the Corporation:

Provided also that, if any such person is a female, she shall not be removed to any such hospital or place unless the same has accommodation for females, of a suitable kind, and set apart from the portion assigned to males.

(*2*) The person (if any) who has charge of a person in respect of whom an order is made under sub-section (*1*) shall obey such order.

(*3*) If any female who, according to the custom of the country, does not appear in public, be removed to any hospital or place under sub-section (*1*)—

and such covenant shall be binding on all transferees from the original purchaser or lessee.

(3) Before possession of any land or building is given to any person by the Corporation in pursuance of any contract (other than a lease) made under this section, the Corporation shall take security from such person for the due carrying out and maintenance of work in accordance with the said scheme.

(Part VI.—Chapter XXXIII.—Acquisition, disposal and general improvement of land and buildings.—Sections 474, 475).

Provided that the prior right referred to in clause (*b*) need not be offered or put up to auction, if the Corporation consider that to do so would be detrimental to the carrying out of the purposes of this Act:

(Part VI.—Chapter XXVIII.—Acquisition, disposal and general improvement of land and buildings.—Section 476.)

(*iii*) if the market-value is specially high in consequence of the property being put to a use which is unlawful or contrary to public policy, that use shall be disregarded and the market-value shall be deemed to be the market-value of the land or building if put to ordinary uses;

(*iv*) if the market-value has been increased by means of any improvement made by the owner or his predecessor in interest within one year before the aforesaid declaration was published, such increase shall be disregarded, unless it be proved that the improvement was made *bonâ-fide* and not in contemplation of proceedings for the acquisition of the land or building being taken under the said Land Acquisition Act. 1 of 1894.

Vesting in Corporation of land and buildings acquired under the Land Acquisition Act, 1894

Provided that the Corporation may at any time permit an excess area not exceeding five *per cent.* of the total area of the site to be covered in the case of a detached building, where they are satisfied, for special reasons to be recorded in writing, that the convenience or amenity of the building will be substantially increased, if such excess area is permitted to be covered.

Dwelling-houses and out-offices, where two-thirds of site are left vacant

24. (*1*) If two-thirds of any building-site are left vacant—

(*a*) the dwelling-house may be placed in any part of the site, but not (subject to the provisions of section 303 or section 309, as the case may be) so as to extend beyond any building-line prescribed under section 302 or section 308; and

(*2*) If two-thirds of a building-site are left vacant under sub-rule (*1*) no building or part of a building shall be erected so as to encroach upon the area so left vacant:

Provided that the Corporation may at any time permit an excess area not exceeding five *per cent.* of the total area of the site to be covered in the case of a detached building where they are satisfied, for special reasons to be recorded in writing, that the convenience or amenity of the building will be substantially increased, if such excess area is permitted to be covered.

Size and ventilation of inhabited rooms

25. Every room in a domestic building which is intended to be used as an inhabited room—

(*d*) shall, if such room has a cubical area of three thousand cubic feet or less, be provided, for every six hundred cubic feet capacity or fraction thereof, with one or more ventilating openings aggregating not less than one-and-a-half square feet in area, near the ceiling and opening directly into the external air or into an open verandah:

Provided that the Corporation may, in their discretion, relax the provisions of clause (*a*) and clause (*d*).

29. *(1)* The minimum superficial area of every court-yard of a dwelling-house shall be one-fourth of the aggregate floor-area of the rooms and verandahs on the ground floor abutting on the court-yard :

Provided that, in determining the said aggregate floor-area,—

(*i*) only one-half of the floor-area of such rooms and verandahs as abut on another court-yard or on the open space prescribed under rule 30, or rule 32, and

(*ii*) no portion of the floor-area of such rooms and verandahs as abut on a street not less than twelve feet in width,

shall be taken into account.

Provided that nothing contained in this sub-rule shall prevent the construction of four-storeyed buildings on two sides of a court-yard where the length of the court-yard opposite such buildings is not less than twenty feet and the width of such court-yard is not less than fifteen feet.

(5) For the purposes of sub-rule *(4)*, the opposite face of the house shall be deemed to be a vertical plane drawn through the most projecting portion of such face excluding any cornice or moulding not exceeding eighteen inches.

(6) Notwithstanding anything contained in sub-rule *(4)*, a dwelling-house abutting on a court-yard of which the greater dimension does not exceed twice the less dimension, shall be held to comply with this rule if, by reason of its abutting on a court-yard of the same area but square in shape, the building would comply with this rule.

30. *(1)* There shall be, at the back of every domestic building, an open space extending along the entire width of the building and forming part of the site thereof.

(2) The said space shall be of such width that any of a series of imaginary lines drawn across such

Provided as follows—

(*i*) the minimum width of such space shall be ten feet ;

(*ii*) in the case of three-storeyed buildings, the angle referred to in this rule shall be increased from sixty-three-and-a-half degrees to sixty-eight degrees ; and

(*4*) This rule shall not apply in the case of—

(*a*) a building the back of which abuts on a public square or street or a place dedicated to public use and not likely to be built upon not less than sixteen feet in width ;

(*b*) a building the back of which abuts on a public street less than sixteen feet in width, if the owner makes a free gift to the Corporation of all land comprised within the site of the building, which falls within eight feet of the centre line of such street as prescribed by the Corporation under rule 3, sub-rule (*6*) ; and

(*c*) a building to which rule 24 applies :

(*5*) For the purposes of this rule, the back of a building shall be deemed to be that face of the building which is furthest from any street at the side of which the building is situated :

Provided that, where a building is situated at the side of more than one street, the back of the building shall, unless the Corporation otherwise direct, be deemed to be that face of the building which is furthest from the widest of such streets.

Provided that attachment of any building to the adjacent building shall not be allowed (except with the permission of the Corporation) in areas declared for the purpose if either of the buildings is a dwelling-house.

(*2*) The minimum distance across such space from every part of the said domestic building to the boundary line of the land or building immediately opposite such part shall be—

(*a*) six feet, if there is a building next to such boundary line or within two feet of it, or

(*b*) four feet, if there is an open space of two feet or more on the other side of such boundary line:

Provided that where there is a public street by the side of the site which is less than six feet wide, the owner may, by giving to the Corporation free of charge such land as will make the street six feet wide, be exempted from leaving further side space under this rule,

(*3*) Notwithstanding anything contained in this rule, where a site adjacent to the site of a proposed building is not occupied by a masonry building situated within ten feet of the boundary line between the two sites and within twenty-four feet from the frontage of the street on which the two sites abut, the proposed building may, with the sanction of the Corporation, be erected along the said boundary line up to a depth of twenty-four feet from such street frontage, unless, in the opinion of the Corporation, there is any objection to any building which may be subsequently erected on the adjacent site being attached to the building so erected.

CALCUTTA IMPROVEMENT TRUST.

The accounts of the Calcutta Improvement Trust for the year 1921-22 having been audited by an Auditor appointed by Government, the following Abstract of Accounts is published in accordance with the provisions of section 136 of Bengal Act V of 1911.

T. EMERSON, *Chairman.*

CALCUTTA, *the 11th July 1923.*

CHAIRMAN,

Annual Accounts for the year ended 31st March 1922.

I beg to submit the Accounts for the year ended 31st March 1922.

CAPITAL ACCOUNT.

At the time of preparing the Budget Estimate for the year 1921-22, it was estimated that the deficit on Capital Account at 31st March 1921 would amount to Rs. 129·65 lakhs. This was on the understanding that the sanctioned loan of Rs. 50 lakhs would be brought to account, but as it was not necessary to draw on this source of income the entire loan of Rs. 50 lakhs has been excluded from the Capital Receipts, which show a deficit of Rs. 167·78 lakhs, or Rs. 11·87 better than the estimate. This is accounted for by an increase in the receipts and decrease in the expenditure of, approximately, Rs. 6 lakhs, or in all Rs. 12 lakhs better during the months of January to March 1922.

RECEIPTS.—The Receipts for the year ended 31st March 1922 amounted to Rs. 3.3⅓ lakhs (exclusive of Rs. 33 lakhs drawn against the previous year's Debenture loan of Rs. 50 lakhs) against an estimate of Rs. 54 lakhs. The difference between the actuals and the estimates is arrived at as follows :—

1921-22.	Budget.	Actuals.	Difference.
	Rs.	Rs.	Rs.
Fees under section 78 ...	3,00,000	4,18,800	+ 1,18,800
Sale of land ...	50,00,000	26,20,000	- 23,80,000
" buildings ...	1,00,000	3,26,700	+ 2,26,700
Fees for footings ...	500	6,700	+ 6,200
Sale of moveable property, etc.	2,000	9,000	+ 7,000
Total ...			- 20,21,300

EXPENDITURE.—The total expenditure for the year was Rs. 105 1/10 lakhs, or Rs. 23½ lakhs less than the Budget Estimate. The difference between the actuals and the estimates is arrived at as follows :—

1921-22. Particulars.	Budget.	Actuals.	Difference.
	Rs.	Rs.	Rs.
Cost of land ...	1,05,29,500	82,48,084	- 22,81,415
Engineering works (including stores)	20,03,000	22,43,215	+ 2,40,215
Advances to Corporation ...	1,90,100	...	- 1,90,100
Cost of Land Acquisition Office	99,000	...	- 99,000

Total ...	1,29,56,500	1,05,91,612	—23,64,887

The closing deficit on Capital Account which it was estimated would amount to Rs. 205·18 lakhs (exclusive of the receipt of Rs. 33 lakhs from the previous year's Debenture Loan of Rs. 50 lakhs) stood at Rs. 206·88 lakhs arrived at as follows :—

1921.	Estimated.	Actuals.	
	Rs.	Rs.	
Opening Balance (deficit) ...	129·65	167·78	Deficit.

Expenditure to 31st March 1922 ...	129·56	105·91

REVENUE ACCOUNT.

RECEIPTS.—The total receipts for the year are Rs. 35,66,000 against a Budget Estimate of Rs. 35,34,000.

EXPENDITURE.—The expenditure for the year was Rs. 11,42,000 against a Budget Estimate of Rs. 12,53,000. The decrease of Rs. 1,11,000 is principally due to savings under Establishment and Litigation.

The closing balance on Revenue Account shows a surplus of Rs. 2,48,02,487-9-10 of which a sum of Rs. 2,06,88,728-8-7 has been spent on Capital Account to meet payments in excess of Capital Receipts. The net balance of Rs. 41,13,759-1-3 was held as follows :—

RESOLUTION.

Simla, the 5th July 1923.

No. 1583-Ex.—In exercise of the powers conferred by section 96-B (*2*) of the Government of India Act, the Secretary of State for India in Council has been pleased to make the following rules regulating the grant of overseas pay to members of services or to holders of posts for which he has sanctioned such pay.

2. The Secretary of State in Council has decided that these rules shall have effect from the 3rd January 1921, and that the principles laid down in the rules shall be applied retrospectively from the dates on which overseas pay came into force for the various services or posts concerned. The object of the grant of retrospective effect is to place the grant of overseas pay on a uniform basis from its inception. An officer not entitled to overseas pay under these rules will not, however, be required to refund any amounts which he may have drawn in good faith.

3. It will be observed that under the rules an officer who has been promoted to an Imperial Service from a provincial or subordinate service or from an outside post and is of non-Asiatic domicile is entitled, subject to the proviso in rule 1 (*a*), to overseas pay from the date on which he became a member of the service. It has been decided that an officer who is admitted to an Imperial Service by promotion should become a member of that service in all respects and that there is no valid reason why he should be treated differently, in respect of overseas pay, from members of the service recruited from other sources. This decision will not, however, supersede that embodied in clause (*1*) of the Home Department resolution No. 1260, dated the 24th June 1920, because Provincial Civil Service officers on appointment to hold listed Indian Civil Service posts do not become members of the Indian Civil Service ; they remain members of the Provincial Civil Service and it is considered that the pay fixed for them is a fair remuneration independently of overseas pay.

OVERSEAS PAY.

1. Overseas pay at the rate or rates sanctioned for a particular service or post may be drawn by the following classes of officers serving in such service or holding such post, namely :—

(*a*) any officer having at the date of his appointment to such service or post his domicile elsewhere than in Asia :

Provided that no such officer shall be entitled to this concession who, prior to such appointment, has for the purpose of his appointment to any office under the Government or of the conferment upon him by the Government of any scholarship, emoluments or other privilege, claimed or been deemed to be a native of India;

RESOLUTION.

Simla, the 10th July 1923.

TARIFFS.

No. 3748.—On February the 16th, 1923, the following resolution was adopted by the Legislative Assembly :—

"That this Assembly recommends to the Governor General in Council—

(*a*) that he accepts in principle the proposition that the fiscal policy of the Government of India may legitimately be directed towards fostering the development of industries in India,

(*b*) that in the application of the above principle of protection, regard must be had to the financial needs of the country and to the present dependence of the Government of India on import, export and excise duties for a large part of its revenue,

(*c*) that the principle should be applied with discrimination, with due regard to the well-being of the community and to the safeguard suggested in paragraph 97 of the report of the Indian Fiscal Commission,

(*d*) that in order that effect may be given to these recommendations, a Tariff Board should be constituted for a period not exceeding one year in the first instance, that such Tariff Board should be purely an investigating and advisory body and should consist of not more than three members, one of whom should be a Government official, but with power, subject to the approval of the Government of India, to co-opt other members for particular inquiries."

2. The Government of India have decided to appoint a Tariff Board, for a period not exceeding one year in the first instance, to carry out the investigations resulting from the acceptance of that resolution and to make recommendations thereon. The following gentlemen have agreed to serve on the Board :—

President :

G. RAINY, Esquire, C.S.I., C.I.E., I.C.S.

Members :

The Hon'ble Mr. V. G. KALE, Professor of Economics, Fergusson College, Poona.
P. P. GINWALA, Esquire, M.L.A., Bar.-at-Law.

Rai Bahadur S. N. Banerji, Assistant Secretary, Commerce Department, has been appointed Secretary to the Board.

3. The Government of India will select the industries to be taken up for investigation and determine the order of the inquiry and it will be the duty of the Tariff Board, after such examination as it thinks necessary, to make recommendations regarding the protection (if any) to be extended to those industries and the nature and extent of the protection. Firms or persons (other than those referred to in the next paragraph) desiring that the industries in which they are interested should be investigated by the Tariff Board should apply to the Secretary to the Government of India in the Commerce Department. With their applications they should send up a full statement of the reasons why they consider that protection should be extended to the industry.

4. The Board will assemble immediately at Simla. As recommended by the Fiscal Commission in paragraph 107 of its Report, the Board will examine first the question of extending protection to the manufacture of steel in India. In considering this question, the Board will take into account the effect of any recommendations it may make on industries dependent on the use of steel, and in particular, it will consider how its recommendations will affect the industries referred to in paragraph 9 of the Report of the Railway Industries Committee, and whether those industries should be accorded protection. Firms or persons interested in the steel industry or the industries dependent on the use of steel, who desire that their views should be considered by the Tariff Board, should address their representations to the Secretary to the Board.

The headquarters of the Board will be with the Government of India, but it will visit from time to time commercial and industrial centres in India for the purpose of the investigations which it may be required to undertake. While the steel industry is under examination, the office of the Board will be located temporarily at Calcutta. For the investigation of other industries, it may be necessary to transfer the office from time to time to other convenient centres.

5. The Government of India trust that Local Governments and Administrations will afford the Board all the assistance which it may require and will comply with any request for information which may be addressed to them by it.

Order.—Ordered that a copy of the above resolution be communicated to all Local Governments and Administrations, the Director General of Commercial Intelligence, and to the Secretary of the Indian Tariff Board.

Ordered also that it be published in the *Gazette of India.*

Paper No. 8.

Letter No. S. 1830, dated the 5th July, 1923, from the Chairman of the Corporation of Calcutta.

We realise that the Bill in no way attempts to provide a comprehensive remedy for the evils of immoral traffic and we have confined ourselves to an endeavour to effect some control in three main directions : firstly to diminish the supply of prostitutes by striking at the procurers and the men who live on the earnings of prostitution ; secondly to provide for the removal from brothels of minor girls under 16 and the punishment for detention of any girl or woman in a brothel against her will ; and thirdly to protect as far as possible students and other youths from temptation by penalising solicitation. We are fully conscious that the Bill in itself will go a very short way if it is not supplemented by a persistent vigorous organisation for rescue work and the proper aftercare of girls and women removed from brothels, and we feel that though Government may give valuable assistance, this is work that must in the main depend upon private effort. Some of us have great doubt whether the risks it is necessary to take in the endeavour to protect youths

from solicitation do not outweigh the benefits of such a course but the majority are of opinion that the existing evil is sufficiently grave to warrant an attempt being made to suppress it and feel that it is our duty to place before the Council provisions to this end.

2. The more important changes we have made in the Bill are as follows :—

Long title, preamble and clause 1.—We consider that the extent of the Bill should be the same as the extent of the Bengal Children Act except that the operation of the present Act should not extend to the Municipality of Howrah as such extension would involve the setting up of a separate machinery to work it. We have made a drafting amendment accordingly in the long title, extent clause and the definitions.

Clause 2, sub-clause (1).—The words "or disorderly house" have been omitted from the definition as unnecessary and misleading.

Clause 2, new sub-clause (3).—It is necessary that a definition of the words "public place" and "street" should be inserted so as to bring the wording of this Act into line with the Calcutta Police Act. A sub-clause has been inserted to this effect.

Clauses 3 and 4.—We have transferred clause 3 to the end of the Bill so as to make the decision on this clause subsequent to that on clause 4.

Clause 4.—As already stated the majority of us consider that it is our duty to propose for the acceptance of the Council provisions for dealing with the evils of solicitation. We are all agreed that clause 4 as originally drawn was too wide and involved considerable dangers; we have defined more exactly the offence to be penalised but we have left the clause so as to include solicitation from balconies and verandahs. We have provided that the powers of arrest shall be exercised only by selected officers nominated by the Commissioner of Police and have specifically included sergeants among the officers who may be so nominated as there appears to be some doubt whether they are above or below the rank of Sub-Inspector. The majority of us feel strongly that if an attempt is to be made to cope with the evil no further weakening of the section is possible; if the powers of arrest without complaint are not to be entrusted to police officers the only possible alternative is to retain the present law and abandon the attempt to bring solicitation under further control. The minority are prepared to accept this alternative rather than run the risks they consider are involved in the grant of these powers of arrest.

Clause 5.—Agreeing with the Commissioner of Police we consider that the powers conferred by this clause should not be exercised by a Deputy Commissioner of Police, but that the Commissioner of Police should be empowered to refer any case to a Deputy Commissioner of Police for inquiry. We also consider that the order for the discontinuance of a brothel should be made not merely as a personal order against the owner, lessor, manager or occupier but as a general order against the public, the notice served on the owner, occupier or lessor being to the effect that the house, room or place which has been used as a brothel or disorderly house or for the purpose of a business of common prostitute shall not again be so used. We are impressed by the fact that otherwise the owners and occupiers may with the greatest ease evade the provisions of this Act. We have safeguarded an incoming proprietor or tenant by inserting a provision to the effect that the Commissioner of Police shall keep a list of all houses, rooms or places in respect of which an order has been made under this clause for the discontinuance of the use of such houses, rooms or places as brothels or for any of the other purposes specified in the clause. We have therefore deleted the original sub-clause (7) and amalgamated it with sub-clause (6). At the same time we have increased the time allowed under sub-clause (2) to enable the owner or lessor, or manager or occupier, on whom the order is served, to comply with the order.

The original *clauses 6, 7 and 8* deal with the rescue of girls from brothels and disorderly houses. We are unanimously in favour of making provision for such rescue by giving adequate powers of entry to the police in order that they may be able to search for girls who are placed in this position, but the proposal that the girl after her rescue may only be looked after until she attains the age of sixteen years does not commend itself to us. We consider

that if the rescue is to be effective and the girl trained to earn a respectable livelihood she must not be cast adrift so quickly and power must be taken to continue her training, if necessary, to the age of eighteen. We have, therefore, provided that while the procedure of the Bengal Children Act shall apply, the court shall have power to direct detention until the age of eighteen years and in clause 15 we have taken power to modify the provisions of the Bengal Children Act.

Clause 7.—We consider that a girl who has been removed from a brothel or disorderly house should be kept in a suitable place other than a police-station or jail not only until she is brought before a court but until the court decides to place her in proper custody or decides to dismiss the case. We have amended the clause accordingly.

The original *clause 8* is now contained in part in the revised *clause 15* which deals with the subsequent treatment of girls on the lines already indicated.

We have considered carefully the many suggestions that have been made for checking the evil of prostitution by taking steps against procurers All of us consider that this is an essential part of the scheme of the Bill and are strongly in favour of making the provisions against procurers and those who live on the earnings of prostitution as severe as is possible. Judicial corporal punishment has in other countries been found the most effective deterrent in the case of these degraded dregs of humanity and in the interests of their unfortunate victims we recommend that this punishment shall be authorised by law. While it is right to deprive the offender of his profits by the infliction of fines we consider that in no case should fine be the only penalty; the profits of the trade would prevent a fine by itself being deterrent.

Clauses 9, 10, 11 and 12—which we have inserted in the Bill are based on the Burma Act, but we have tried to make these clauses conform to the above principle and to stop possible loopholes which might be found to exist in the wording of the Burma Act.

Clause 13.—We consider that offences under clauses 9, 10, 11 and 12 should be triable only by a Presidency Magistrate or a Magistrate of the first class.

3. The Bill was published in English in the *Calcutta Gazette* of the 14th February, 1923.

4. We do not consider that the Bill has been so altered as to require republication.

5. We recommend that the Bill, as amended by us, be passed.

22. Letter No. 275, dated the 27th April, 1923, from the British Indian Association.

2. The more important changes are as follows :—

1. *Long title and Preamble.*—We have taken into consideration the fact that difficulties have arisen in the interpretation of the words 'held under the custom of *utbandi*' and we consider that the wording should be made explicit so as to cover all *utbandi* lands without question. We have made an amendment to give effect to this recommendation.

Clause 2. (*i*) *Proposed section 180A, sub-section* (*1*).—We have considered very carefully the opinions on the draft Bill as circulated by the Government and we think that the objections to the new section 180 B and to 180A (*2*)(*b*) will best be met by restricting the power of making applications for fixing a uniform annual money rent to persons who are, or who but for the operation of section 180 in respect of lands held under the custom of *utbandi* would have been, settled raiyats of the village. This restriction will ensure that casual tenants will not be able to avail themselves of the provisions of the Bill. We have accordingly suggested an amendment to this sub-section. An amendment consequential on the recommendation recorded in paragraph 1 has also been made in this sub-section and throughout the remaining portions of the Bill.

(*ii*) *Proposed section 180A, sub-section* (*2*).—The words "in the same village" have been inserted in clauses (*a*) and (*b*) so as to make the intention clear, and a provision has been made that in the case of lands in which the raiyat has not acquired a right of occupancy the application shall include not only the lands which he himself has held during the past six years but also those lands which have been cultivated during that period by persons whose heir he is and who have died.

(*iii*) *Proposed section 180A, new sub-section* (*2a*).—We consider that, with a view to simplify the procedure and to diminish the cost of proceedings, the landlord should be able to put in a single application for conversion in respect of all the lands held in *utbandi* by tenants under him in the same village, while one or more tenants should be able to put in a single application for conversion in respect of the lands held in *utbandi* by them under the same landlord and in the same village.

(*iv*) *Proposed section 180A, sub-section* (*5*).—We consider that steps should be taken to protect permanent superior landlords under whom there are temporary tenure-holders or *ijaradars*, who might make use of the provisions of the Act to the prejudice of the permanent superior landlords by the taking of premium on conversion. We consider that the best way of protecting permanent superior landlords in this matter is to make it obligatory on the officer who receives the application to send notice in cases where the immediate landlord of the raiyat has a mere temporary interest to the superior landlord in order that the latter may contest the application before the determining officer or come to an amicable private arrangement with the immediate landlord of the raiyat in regard to the apportionment of the premium.

(*v*) *Proposed section 180A, sub-sections* (*6*) *and* (*7*).—Consequential and drafting alterations have been made in these sub-sections. While considering proposed sub-section (*7*) we discussed the question as to whether a premium should be taken in every case of conversion of *utbandi* lands in which the raiyat has not acquired an occupancy right. We consider that the taking of a premium in all such cases is justified. It represents a payment for new rights conferred.

(*vi*) *Proposed section 180A, sub-section* (*8*).—We consider that the basis of the calculation of the sum to be determined as uniform annual money rent should be the average of the amount that was actually paid or payable as rent for the land during the previous six years and that this average rent should not be made merely a factor of equal weight with others for the guidance of the determining officer. We have, therefore, agreed to delete clause (*b*) of this proposed sub-section and have amended the main sub-section to the above effect. As to the subsidiary points which the determining officer should take into consideration in dealing with special cases, objections were put forward by various sides in regard to clause (*a*) and clause (*c*) of this sub-section, but these were withdrawn on compromise, as the various clauses go to balance one another. Drafting amendments have also been made in clause (*d*).

In our opinion the charges incurred by the landlord on account of drainage should also be considered and we have amended clause (*e*) accordingly and have also simplified the drafting of this clause.

(*vii*) *Proposed section 180A, sub-section* (*9*).—In connection with this proposed sub-section the question as to whether there should be a fixed rate of premium or a varying rate of premium was discussed. A varying rate might meet local conditions and cases where rents are unduly high or unduly low. We, however, on consideration of all the factors in the case have recommended the retention of the proposal in the Bill that there should be a fixed rate of premium in all cases. It is of special importance that the landlord or the tenant, as the case may be, should have a fairly clear idea of what he is asking for or what he is faced with at the time when he makes the application for conversion or receives notice of such application. Where both parties know mathematically what their rights are in the absence of special circumstances, an amicable settlement is far more likely than where there is inevitably a point to be decided by a third party. We have retained the proposal in the Bill that the amount of the premium should be three years' rent.

We consider that the proviso to this sub-section should be deleted. It is better for both the landlord and the tenant that a premium should be paid in regard to the lands in which the tenant has not acquired occupancy rights than that the tenant and his successors should be saddled with an increase of rent in lieu of payment of premium.

(*viii*) *Proposed section 180A, sub-section* (*10*).—The question of costs was considered in connection with this sub-section, but we consider that it is desirable that the parties should bear their own costs. This will be the case in the absence of a definite provision in the Bill to the contrary. This sub-section has, therefore, been left unaltered.

(*ix*) *Proposed section 180A, sub-section* (*11*).—We agree to the system of payment of the premium by instalments and consider that the principle of payment by not more than three instalments, as suggested in the Bill, is suitable.

(*x*) We have adopted the remaining sub-sections of the proposed section 180A, and also the proposed section 180B with minor drafting modifications. We consider that the objections in the opinions received to this proposed section are met satisfactorily by the restriction of the operation of the Bill to lands held by settled raiyats or by persons who would have been settled raiyats but for the operation of the *utbandi* provisions of the Tenancy Act.

3. In our deliberations we have throughout kept in view the need for maintaining the general working scheme of the Bill as a basis of compromise and this has necessarily involved give and take on either side in regard to matters of detail in the interest of the success of the measure as a whole.

4. The Bill was published in English in the *Calcutta Gazette* of the 27th June, 1923.

5. We do not consider that the Bill has been so altered as to require republication.

6. We recommend that the Bill, as amended by us, be passed.

NOTE—* Signed subject to the note of dissent annexed.
† Signed subject to note of dissent, if any.

Note of Dissent by the Hon'ble Mr. P. C. Mitter.

I sign this report subject to one suggestion. In my opinion multiplicity of legal proceedings should be avoided. I say this as much in the interest of the landlord as of the tenant and if I may say so, more in the interest of the tenant than of the landlord because the tenant has usually a smaller purse. The proposal in the Bill will mean a fresh suit on payment of court fees.

The proposal in sub-section (*12*) of the proposed new section 180A involves a fresh suit for the recovery of the *salami*. This means that the plaintiff will have to pay court fees which will be ultimately recoverable from the tenant. This will also mean that both parties will have to incur costs of litigation. Litigation necessarily results in harassment to both the parties. I would therefore suggest that the premium or the instalment may be recovered by the landlord making a requisition to the Collector for the recovery of the arrear of the same in the manner set forth in sub-sections (*3*) and (*4*) of section 158A, and the provisions of sub-sections (*5*) to (*9*) of that section shall apply to the recovery of the said arrear by the Collector as if it were an arrear of rent recoverable by him under the provisions of that section. In my view, if my suggestion be accepted both the landlord and the tenant will be benefited.

Note of Dissent by Maulvi Ekramul Huq, B.L., M.L.C.

I do not agree to the payment of any premium by the *utbandi* tenant for which provision is made in section 180A, sub-sections (7) and (9). But for section 180 of the Bengal Tenancy Act such tenants would have got the right of occupancy long ago and the amended Act does not confer any new right whatsoever but simply tries in a feeble manner to undo a wrong done so long.

Note of Dissent by Raja Reshee Case Law, C.I.E., M.L.C.

I sign subject to the reservation that the premium should be paid in one instalment and not three, as otherwise it will involve the landlord to unnecessary litigation for its recovery.

THE BENGAL TENANCY (UTBANDI AMENDMENT) BILL, 1923;

(as amended by the Select Committee.)

A

BILL

to supplement and amend the Bengal Tenancy Act, 1885, in order to provide means whereby a uniform annual money rent may be determined for utbandi lands and to make further provision in respect of such lands.

Preamble.

WHEREAS it is expedient to supplement and amend the Bengal Tenancy Act, 1885, in order to provide means whereby a uniform annual money-rent may be determined for land held under the custom of *utbandi* or under any form of tenancy locally known as *utbandi*, and to make such other provisions as hereinafter appear in respect of lands for which a uniform annual money rent has been so determined; VIII of 1885.

And whereas the previous sanction of the Governor General under sub-section (*3*) of section 80A of the Government of India Act has been obtained to the passing of this Act; 5 & 6 Geo V., c. 61; 6 & 7 Geo. V., c. 87; 9 & 10 Geo. V., c. 101.

It is hereby enacted as follows:—

Short title and extent.

1. (*1*) This Act may be called the Bengal Tenancy (Utbandi Amendment) Act, 1923.

(*2*) It extends to the whole of Bengal.

Insertion of new sections 180A and 180B in Act VIII of 1885.

2. After section 180 of the Bengal Tenancy Act, 1885, the following sections shall be inserted, namely:—

"180A. (*1*) Notwithstanding anything contained in section 180, when a raiyat who is or who but for the operation of section 180 in respect of land held under the custom of *utbandi* would have been, a settled raiyat of the village, holds or has held under the custom of *utbandi*, or under any form of tenancy locally known as *utbandi* land, (hereinafter referred to as *utbandi* land), either the landlord or the raiyat may apply to have a uniform annual money rent determined for the land.

Fixing of uniform annual money rent in respect of *utbandi* lands.

(*2*) The application shall include at the discretion of the applicant either—

(*a*) all utbandi lands held in the same village by the same raiyat under the same landlord in which the raiyat has acquired a right of occupancy whether under the provisions of section 180 or otherwise, or

(*Clause 2.*)

(*b*) all the lands held in the same village under the same landlord by the raiyat which the raiyat, or any deceased person whose heir he is, has cultivated as *utbandi* land at any time during the preceding period of six years if he or the said deceased person is the last person to have cultivated the land and has or had not acquired occupancy rights therein, or

(*c*) both.

(*2a*) Subject to the provisions of sub-section (*2*), a single application may be made by a landlord in respect of lands held as *utbandi* lands in the same village by one or more raiyats under him and a joint application may be made by two or more raiyats in respect of lands held by them as *utbandi* lands in the same village under the same landlord.

(*3*) The application may be made to the Collector or to a Subdivisional Officer or to a Revenue Officer appointed by the Local Government under the designation of Settlement Officer or Assistant Settlement Officer for the purpose of making a survey and record-of-rights under Chapter X or to any other officer specially authorised by the Local Government.

(*4*) The case may be determined by the officer who receives the application, or the Collector or the Settlement Officer may transfer it for disposal to some other officer competent under sub-section (*3*) to receive applications.

(*5*) The officer receiving the application or the officer to whom the case is transferred, as the case may be, shall cause notice to be given in the prescribed manner to the opposite party, and shall fix a date for the determination of the case.

If the immediate landlord of the raiyat is a temporary tenure-holder or *ijaradar* the officer receiving the application shall also give notice to the superior landlord in the lowest degree, who is a proprietor or permanent tenure-holder.

(*6*) If the application is made in respect of lands in which the raiyat has not acquired occupancy rights, the officer may reject it in whole or in part in respect of such lands, if he is satisfied in view of all the circumstances of the case that it is unreasonable to grant it:

Provided that a refusal shall be no bar to proceedings being again taken under this section after five years from the date of refusal if in the opinion of the officer who then received the application the circumstances have in the meantime changed.

(*Clause 2.*)

(7) If the application is not wholly rejected, the officer shall then determine the sum to be paid as a uniform annual money rent, and also in the case of lands in which the raiyat has not acquired occupancy rights, a premium to be paid to the landlord, and he shall order that the raiyat shall, in lieu of paying the rent for the land as *utbandi* land, pay the sum so determined and the premium, if any.

(8) In making the determination of the sum to be paid as rent, the officer shall calculate the average of the amount that was actually paid or payable as rent for the land during the previous six years and shall ordinarily declare the same as the sum to be paid as rent:

Provided that the officer may also take into conderation—

(*a*) the average money rent payable by occupancy raiyats for land of a similar description and with similar advantages in the vicinity;

(*b*) [*Omitted.*]

(*c*) the average rates for lands of a similar description and with similar advantages in the vicinity held as *utbandi* lands;

(*d*) the average money rent payable for lands of a similar description and with similar advantages in the vicinity by raiyats who formerly paid their rent for those lands as *utbandi* lands but whose rents have been converted into uniform annual money rents whether under this section or by agreement or otherwise;

(*e*) the charges incurred in accordance with custom by the landlord in respect of the irrigation and drainage of the utbandi lands and the arrangements made for continuing those charges;

(*f*) the rules laid down in this Act for the guidance of the Civil Courts in enhancing or reducing rents on account of the holdings of occupancy raiyats;

(*g*) any sum agreed to by the parties to be paid as money rent:

Provided that the officer shall in no case determine a rent which is unfair or inequitable.

(*Clause 2.*)

(*9*) The premium to be paid to the landlord in the case of lands in which the raiyat has not acquired occupancy rights shall be three times the rent, or, if the application is made under clause (*c*) of sub-section (*2*), three times the portion of the rent determined under sub-section (*7*) on account of such lands.

(*Proviso omitted.*)

(*10*) The order shall be in writing, shall state the grounds on which it is made, and shall, in the absence of any special reasons to the contrary recorded in writing, take effect from the beginning of the agricultural year next after the date on which it is made.

(*11*) The officer may, on the application of the raiyat, order that the premium shall be paid by instalments not exceeding three in number, that the first instalment shall be paid at the beginning of the agricultural year in which the rent settled under sub-section (*7*) takes effect and that one of the remaining instalments shall be paid at the beginning of each of the succeeding agricultural years until the premium is paid in full.

(*12*) The premium or the instalments thereof shall be payable and recoverable as rent, but interest shall only be awarded in respect of such instalments as are not paid by the date fixed under sub-section (*11*).

(*13*) The order shall be subject to appeal in the manner provided in section 109A, unless the application has been made in the course of proceedings under Part II of Chapter X, in which case the provisions of sections 104G and 104H shall apply.

(*14*) Notwithstanding anything contained elsewhere in this Act or in any other law, no suit shall be brought or application made in any court in respect of any order passed under this section, save as is provided in this section.

Lands in respect of which a uniform annual money rent has been fixed under section 180A to cease to be *utbandi* lands

180B. Whenever an order under section 180A is passed determining a uniform annual money rent for any lands, such lands shall cease to be held as *utbandi* lands with effect from the date from which the new rent takes effect, and the tenant shall hold them as an occupancy raiyat from the date of the order."

NOTIFICATION.

No. 1846L., dated Calcutta, the 23rd July, 1923.—The following Report of the Select Committee on the St. Thomas' School Bill, 1923, (with the Bill, as amended by the Committee), is hereby published for general information.

REPORT OF THE SELECT COMMITTEE ON THE ST. THOMAS SCHOOL BILL, 1923.

We, the undersigned members of the Select Committee, to which the Bill to provide for the management and future location of St. Thomas' School in Calcutta and for the making over of St. Thomas' Church in Calcutta to certain ecclesiastical authorities was referred, have considered the Bill and have the honour to submit this our Report with the Bill, as amended by us, annexed hereto. In reprinting the Bill all changes made by us have, so far as possible, been underlined.

2. We have made some changes in the Title and Preamble to bring the wording into line with the actual facts.

We consider that membership of the Governing Body of St. Thomas' School should be widened and have amended clause 2 accordingly.

In so doing we have transferred from original sub-clause (*d*) to separate sub-clauses, the references to the representative of the Bengal Chamber of Commerce and the representative of the Anglo-Indian and Domiciled European Association of Bengal, so as to make it possible for those bodies to nominate either a member of the Church of England or a member of some other denomination.

We have also added to the body of Governors a European or Anglo-Indian Commissioner of the Corporation. We have also given the Governors a free choice in regard to the persons who shall be co-opted under sub-clause (*2*).

Clauses 11 and 12.—We have considered these clauses in conjunction with clause 2 and consider that they should stand as drafted. In Bengal, whatever the denomination of a school may be, there is under the rules for grants-in-aid to European schools no restriction on religious teaching in that school being imparted to all boarders according to the principles of a particular denomination, while in the case of day-boys a conscience clause is an obligatory condition of a grant-in-aid from the Government. The application of those rules is specially safeguarded by clause 12, and this will ensure that the St. Thomas' School is conducted in this matter on the same general principle as governs the conduct of other European schools in Bengal.

Clause 13.—We have considered very carefully the question of the amount of land that should be made over by the Governors to St. Thomas' Church, and we are of opinion that the area which it is proposed to make over is suitable. A new proposal has been made to increase that area by nine cottahs, but in our opinion this is not justified in view of the financial difficulties of the school.

We consider that the total area of two bighas, as set out in this clause will be sufficient to provide a suitable compound for the Church and, as the Free School site may be disposed of in one or more lots, and as the general lay-out may differ according to the manner of disposal, it is difficult at the present moment to fix the exact boundaries of the land that will be given to the Church. We have, therefore, confined our specification of that land to a

declaration as to the total area of the Church and its compound, and we have provided that the Local Government shall approve the actual delineation before the making over of the compound land to the ecclesiastical authorities takes place.

Clause 14 and sub-clause (e) of clause 15.—We have made a drafting amendment so as to make it clear that more than one provident fund can, if necessary, be established for the teachers, officers and servants of the school.

We have amended the First Schedule so as to exclude from it merely the land on which the actual building of St. Thomas' Church stands.

We have also omitted the Third Schedule. These changes are consequential on the amendments made in clause 13.

3. The Bill was published in English in the *Calcutta Gazette* of the 27th June, 1923.

4. We do not consider that the Bill has been so altered as to require re-publication.

5. We recommend that the Bill, as amended by us, be passed.

2. On the Committee assembling, the Hon'ble the Member in charge informed the other members that the Corporation of Calcutta had asked for further time to consider the Bill. If this had been granted, it would have been impossible to place the Bill again before the present Council. Government had however considered very carefully the question as to whether the Bill should be curtailed and confined to certain non-controversial and urgent clauses. On the whole, he was of opinion that it was not desirable to pass the Bill in its original form through the Council during the August session. Sufficient time was not available for the full consideration of certain controversial points which had been raised in various opinions, received in connection with the Bill. Moreover, the Corporation wished to propose changes in other sections of the Act, which were not touched by the Bill. He was prepared to give them time to mature their proposals with the object of legislating next year. He asked the Select Committee to recommend, therefore, that only those portions of the Bill which are of a really emergent nature be placed before the Legislative Council at the consideration stage. The two points which require immediate settlement are the amendment of the wording of section 54, the interpretation of which is in dispute between the Corporation and the Improvement Trust, and the raising of the rate of interest in sections 78 and 79 of the Act from four to six per cent.

On consideration of the position we have accepted the proposal of the Hon'ble the Member in charge that the Council be asked to proceed only with the abovementioned portions of the Bill.

We have discussed the proposed amendment of section 54, and it has been announced by the Chairman of the Calcutta Corporation and the Chairman of the Improvement Trust that an equitable agreement has been come to in regard to the question of compensation for lands and buildings of the Corporation taken over by the Trust for the purposes of an improvement scheme. We are agreed that the details of the settlement of the dispute should be embodied in the Act and have made an amendment in section 54 accordingly. This amendment carries out the proposals made in the original Bill in sub-clause (*1*) of clause 15 and in sub-clause (*3*) of that clause, but it has also been agreed that the determining factor in regard to the question of payment of compensation by the Board to the Corporation in respect of lands taken over under section 54 should be the question whether the land taken over is going to be returned to the Corporation in accordance with the provisions of section 65 when the improvement scheme has been completed. If the land is so returned—in other words, forms an integral and permanent part of the scheme—the Corporation will be compensated for the temporary loss of it by its improved value on the completion of the improvement scheme. If it is not so returned, but is sold by the Trustees for recoupment purposes, compensation should be payable to the extent of the market value of the land as at the date of declaration made under section 6 of the Land Acquisition Act in respect of other lands scheduled for acquisition within the scheme. Compensation should be payable in all cases for buildings belonging to the Corporation and taken over by the Board.

We have also discussed the question of the amendment of sections 78 and 79 of the Act in regard to the rate of interest payable under those sections. The proposal to raise the rate to six per cent. appears in clause 21 of the Bill, that is to say, in clause (*ii*) of sub-section (*5*) of the proposed new section 78, and in sub-section (*8*) of the said section and also in the amendment to section 79 proposed in clause 22.

With one dissentient we consider that the raising of the rate of interest to six per cent. is justified, but we consider that in cases where the rate has already been fixed in accordance with the Act and where the agreement under the Act has already been executed, or is executed within two months after the coming into force of the increased rate, the old rate of four per cent. should be applied. A modified proposal to this effect is embodied in clause 3 of the revised Bill.

We recommend that the revised Bill as attached to this Report be taken into consideration and passed as amended by us, the Bill in its original form being not considered further. The amendments suggested in the clauses

dealt with are on matters of working and, as those clauses have already been laid before the public, we do not consider that the Bill has been so altered as to require republication.

3. The Bill was published in English in the *Calcutta Gazette* of the 21st March, 1923.

CALCUTTA;
The 23rd July, 1923.

* Signed subject to the note of dissent annexed.

Note of Dissent by Babu Amulya Dhon Addy, M.L.C.

The first proviso of clause 4 and clause 7 should be omitted on the following grounds :—

(1) When wards 19 to 25 of the Calcutta Municipality were added to the town of Calcutta, no concession was shown to the rate-payers of the said added area. The same consolidated rate has been levied on them since 1889 as that on the rate-payers of the town proper. I do therefore fail to understand as to why the total amount of rates on lands and buildings in Manicktala, Cossipore-Chitpur and Garden Reach should not be increased during the year 1924-25 and as to why the Corporation of Calcutta should be authorised to fix a lower rate on the annual valuation of the newly added area than that in the town of Calcutta during the years 1925-26 to 1928-29, specially as the annual valuation of holding in the newly added area is, in the opinion of the Assessor of the Calcutta Corporation, very low.

(2) At present, the owners and occupiers of small holdings in the newly added area are assessed more heavily than those of big holdings, for in Cossipore-Chitpur the latrine-fee on holdings up to an annual valuation of Rs. 100 (one hundred rupees) is at the rate of 11 per cent. (eleven per cent.) while on holdings of the valuation of Rs. 400 (four hundred rupees) and upwards it is at the rate of 5 per cent. (five per cent.) subject to a maximum of Rs. 480 (four hundred and eighty rupees) per annum. In Manicktala, as will appear from the Report of the Government Boundary Committee, the aggregate rate on holdings up to an annual valuation of Rs. 100 (rupees one hundred) is 28·2 per cent. (twenty-eight point two per cent.) while that on holdings of the annual valuation of Rs. 3,000 (rupees three thousand) and upwards is 19·5 per cent. (nineteen point five per cent). It is therefore thus desirable that all rate-payers should be similarily taxed as in Calcutta. The municipal rates on the poor should not in any way be higher than those on the rich as in the newly added area.

(3) As will appear from the proceedings of the meeting of the Calcutta Corporation held on the 9th January, 1923, that they shall have to incur a capital expenditure of Rs. 90,00,000 (rupees ninety lakhs) for the improvement of the drainage, water-supply and lighting of Cossipore-Chitpur and Manicktala. They shall have certainly to incur not less than Rs. 20,00,000 (rupees twenty lakhs) for similar improvements in Garden Reach. Is it not therefore desirable that the rate-payers of the newly added area should be called upon to pay the same rate as those of the town of Calcutta to pay at least the interest of the loan to be raised for the execution of the said works, specially as the owners of holdings in the newly added area shall not have to pay an additional stamp duty at the rate of 2 per cent. (two per cent.) on instruments of sale of immovable property as in the case of the town of Calcutta under section 82 of the Calcutta improvement Act ?

(4) The sanitary condition of the newly added area, specially Manicktala, is not a satisfactory one and as under section 90 of the new Calcutta Municipal Act, the Corporation shall have to spend annually not less than three lakhs of rupees (Rs. 3,00,000) for the newly added area in the execution of original improvement works from the third year and as the new Corporation will consist of thirteen ward Commissioners elected by the rate-payers of the newly added area, there is not the least doubt that the Corporation shall have to provide substantial amounts from the very commencement of the new Act for the improvement of the said area

(5) In the very first year of the commencement of the Act, a very substantial amount is likely to be entered in the budget for the improvement of the newly added area as out of twenty-one members of the Budget Special Committee, including the Chairman, eight members will be elected by the Commissioners of the newly added area.

(6) Undue favour appears to have been shown to the rate-payers of the newly added area though for one year as the town of Calcutta, including the area added in 1889, paying a revenue of one crore and fifty-eight lakhs of rupees in 1921-22 shall have only twelve representatives in the Budget Special Committee excluding the Chairman thereof, while the rate-payers of the newly added area paying an aggregate revenue of only Rs. 10,72,000 (rupees ten lakhs and seventy-two thousand) in the same year shall have eight repesentatives in the said Special Committee.

THE CALCUTTA IMPROVEMENT (AMENDMENT) BILL, 1923,

(as amended by the Select Committee.)

A

BILL

further to amend the Calcutta Improvement Act, 1911.

WHEREAS it is expedient further to amend the Calcutta Improvement Act, 1911, in the manner hereinafter appearing; Ben Act V of 1911.

And whereas the previous sanction of the Governor-General has been obtained, under section 80A, sub-section (3), of the Government of India Act, to the passing of this Act: 5 and 6, Geo. V, c. 61; 6 and 7, Geo V, c. 37; 9 and 10, Geo. V, c 101

It is hereby enacted as follows:—

Short title.

1. This Act may be called the Calcutta Improvement (Amendment) Act, 1923.

New section substituted for section 54 of Bengal Act V of 1911

2. For section 54 of the said Act the following shall be substituted, namely:—

Transfer to Board, for purposes of improvement scheme, of building or land vested in the Corporation or in the Commissioner of a Municipality

"54. (1) Whenever any building, or any street, square, or other land, or any part thereof, which—

(a) is situated in the Calcutta Municipality and is vested in the Corporation, or

(b) is situated in any part of any Municipality constituted under the Bengal Municipal Act, 1884, in which this section is for the time being in force, and is vested in the Commissioners of that Municipality,

is within the area of any improvement scheme and is required for the purposes of such scheme, the Board shall give notice accordingly to the Chairman of the Corporation or the Chairman of such Municipality, as the case may be, and such building, street, square, other land or part, shall thereupon vest in the Board subject to the payment of compensation, if any, to the Corporation or to such Commissioners, as the case may be, under sub-section (3).

(*Clauses 3-4.*)

Commissioners, as the case may be, as compensation for the loss resulting from the transfer of such land or building to the Board, a sum equal to the market value of the said land or building at the time when the general declaration in respect of other lands included in the scheme is made under the provisions of section 6 of the Land Acquisition Act, 1894, as amended by this Act, and where any building, situated on land in respect of which a declaration has been made by the Board under sub-section (*2*), is vested in the Board under sub-section (*1*), like compensation shall be payable in respect of such building by the Board.

(*4*) If the Board fail to retain any land or any portion of land in accordance with the provisions of sub-section (*2*) after having declared their intention so to retain it, like compensation shall be payable by them to the Corporation in respect of such land.

(*5*) If any question of dispute arises—

(*a*) as to the sufficiency of the compensation paid or proposed to be paid under sub-section (*3*) or sub-section (*4*), or

(*b*) as to whether any building or street, or square or other land, or any part thereof is required for the purposes of the scheme,

the matter shall be referred to the Local Government, whose decision shall be final."

Amendment of section 78.

3. (*1*) (*i*) In clause (*ii*) of sub-section (*4*) and in sub-section (*8*) of section 78 of the said Act, for the words "four *per cent.*" the words "six *per cent.*" shall be substituted; and

(*2*) (*ii*) to that section the following shall be added, namely:—

"(*10*) Notwithstanding anything contained in clause (*ii*) of sub-section (*4*) or in sub-section (*8*) the rate of interest payable, under the provisions of that clause or that sub-section, as the case may be, shall be, or continue to be, four *per cent. per annum* in cases where the sum, in consideration of which the acquisition of the land has been abandoned, has been fixed under sub-section (*3*) before the date of the commencement of the Calcutta Improvement (Amendment) Act, 1923, and the agreement in respect of the payment of the same is executed before, on or within two months after, that date."

Amendment of section 79

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

No. 1848L., dated Calcutta, the 23rd July, 1923.—The following Report of the Select Committee on the Calcutta Municipal (No. II) Bill, 1923, (with the Bill, as amended by the Committee), is hereby published for general information.

REPORT OF THE SELECT COMMITTEE ON THE CALCUTTA MUNICIPAL (No. II) BILL, 1923.

We, the undersigned members of the Select Committee, to which the Bill to provide for certain matters in connection with the Budget Estimates of the Corporation of Calcutta for the year 1924-25, the fixing of the rates at which the consolidated rate and the taxes for that year shall be levied and imposed, and the arrangements to be made in connection with the raising of loans during that year, for the fixing of the percentage of the consolidated rate in respect of the added areas during the four succeeding years and for the amendment of section 20 of the Calcutta Municipal Act, 1923, in respect of the qualification of electors, was referred, have considered the Bill and have the honour to submit this, our report, with the Bill, as amended by us, annexed hereto. In reprinting the Bill, all changes made by us have, so far as possible, been underlined.

2. The more important changes are as follows :—

Preamble.—We have made two minor drafting alterations which call for no remark.

Clause 3.—We consider that, with a view to expedition, the scrutiny of the Budget, as framed by the Chairman, should be made by a Special Committee appointed somewhat in the manner laid down in the Thirteenth Schedule to the Act of 1888.

We have added to the number of members that shall serve on this Committee from the Cossipore and Maniktala Municipalities. The Garden Reach Municipality, we consider, is adequately represented under the Bill.

We have provided for the representation of the Corporation on this Special Committee by placing on the Committee eight Commissioners elected from among the ward Commissioners and four Commissioners elected from among the nominated Commissioners.

Clause 4.—The Special Committee will report direct to the Corporation. It is hoped that this will eliminate the present lengthy procedure under which the Corporation, after receiving the General Committee's revised Budget, refer the same again to another Committee of their own before considering the Budget.

We have provided, in the usual manner, against failure by the Commissioners of the municipalities included in the added areas to elect their representatives to the Special Committee.

We have provided that the Commissioners from the added areas who will serve on the Special Committee shall also serve on the Corporation when that body considers the final Budget Estimates and proposals as framed by the Special Committee.

We have also provided against default by the Special Committee or by the Corporation in the final framing, and in the passing, of the Budget Estimates and proposals.

We have considered the proviso to the original clause 4, and in our opinion the situation for the year 1924-25 will best be met by arrangements under which the totals of the rate on holdings, lighting rate, water rate and the latrine fees levied in respect of a holding in any of the added areas under the Bengal Municipal Act shall be deemed to be the consolidated rate levied under the Calcutta Municipal Act, 1923, for the year 1924-25.

It is necessary, however, to provide for the assessment of any new building in the said areas which otherwise would escape taxation altogether during that year and we have made a provision accordingly.

Some members of the Committee wish to widen *clause 7* so as to give more relief to the added areas. Others wish to restrict the relief by confining it to the period during which the added areas are receiving no benefit under section 90 of the Calcutta Municipal Act, 1923. The majority of us, however, consider that the clause as framed should stand as an equitable working arrangement.

Clause 8.—We have considered the proposed modification of clause 8, and we are of opinion that the 30th day of September preceding the election is the correct final date to be taken.

We consider that, in view of the provisions of section 25, it is better to omit the first proviso to sub-clause (*a*) of clause 20 which is likely to create difficulty. We have made some other drafting alterations in the clause and made it more specific.

The insertion of the words " or having been " in sub-clauses (*a*), (*b*) and (*c*) is made with a view to taking in cases such as those of a person who is still residing in the ward but has changed his place of residence therein and also cases of persons who have changed their professions, etc.

Clause 9—We realize that in the transitory period between the old system and new system of assessment (*i.e.*, in 1924-25) anomalous cases may arise, in which it is necessary that the Corporation should be able to apply equitable principles in modification of the strict letter of the law and also to prevent evasion. We have therefore, at the request of the Calcutta Corporation, inserted an enabling sub-clause in clause 9 to deal with this matter.

Note of Dissent by Babu Amulyadhon Addy, M.L.C.

Clauses 4 and 5 should be omitted on the following grounds :—

(1) Even ancestral dwelling-houses which are regarded as sacred by the Indians are acquired to recoup the cost of construction of roads with the drainage, sewering, water-supply and lighting thereof and the owners of the said houses are called upon to pay heavy sums for the exemption of the said houses from acquisition notwithstanding the fact that the opening of roads not only increases the value of adjacent lands but also improves the sanitation of the locality in which the public-at-large are benefited.

(2) I admit an interest at the rate of 6 per cent. (six per cent.) on loans is reasonable, but I am strongly of opinion that it would be unreasonable on exemption fees which are fixed by the Board and against whose decision the persons aggrieved have no right of appeal to a higher and disinterested authority.

If the said suggestion is not accepted, then the words "not exceeding six per cent." may be substituted for the words "six per cent." so that the Board may fix the rate of interest from time to time having regard to the state of the money-market of Calcutta and specially the rate of interest which is paid by the Government of India on Promissory Notes.

It is regrettable that the Select Committee have thought it fit to amend the Calcutta Improvement Act simply by giving unlimited powers to the Board for the acquisition of surplus lands and by increasing the rate of interest on exemption fees from 4 to 6 per cent. (four to six per cent.) per annum. It is also regrettable that the suggestions of the public bodies to which the original Bill was referred for opinion, namely the constitution of the Board, Right of Appeal to the High Court on questions of fact and extension of the Improvement Act to Tollygunge and South Suburban Municipalities have been ignored by the Select Committee.

THE CALCUTTA MUNICIPAL (No. II) BILL, 1923;

PART VI.

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly, and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly :—

A Bill further to amend the Indian Limitation Act, 1908.

WHEREAS it is expedient further to amend the Indian Limitation Act, 1908 ; It is hereby enacted as follows :— IX of 1908.

Short title.

1. This Act may be called the Indian Limitation (Amendment) Act, 192 .

Amendment of section 19, Act IX of 1908.

2. In section 19 of the Indian Limitation Act, 1908 (hereinafter referred to as the said Act), the following amendments shall be made, namely :— IX of 1908

(*a*) In sub-section (*1*), for the words "an acknowledgment" the words "a clear and unconditional acknowledgment" shall be substituted, and for the words "signed by" the words "signed and dated by" shall be substituted ;

(*b*) Sub-section (*2*) shall be omitted ;

(*c*) Explanation I shall be omitted ; and

(*d*) for Explanation II the following shall be substituted, namely :—

"*Explanation II.*—For the purposes of this section 'signed' means signed either personally or by an agent duly authorised in writing in this behalf."

Amendment of section 20, Act IX of 1908.

3. (*a*) For sub-section (*1*) of section 20 of the said Act, the following shall be substituted, namely :—

"Where anything is paid either as interest or part of the principal of a debt or legacy before the prescribed period by the debtor or by his agent duly authorised in writing in this behalf, the entry as to such payment being signed and dated by the payer, a fresh period of limitation shall be computed from the date of payment."

(*b*) Sub-section (*2*) of the same section shall be omitted.

Amendment of section 21, Act IX of 1908.

4. In sub-section (*1*) of section 21 of the said Act, after the word "authorised" wherever it occurs, the words "in writing" shall be inserted.

STATEMENT OF OBJECTS AND REASONS.

The object of the proposed amendments is to decrease litigation, perjury, forgery and fraud. At present many facts are required to be proved by oral evidence which the Courts may or may not believe and the result is always uncertain.

Under the proposed amendment, a clear and unconditional acknowledgment duly signed and dated by the person liable or by his agent duly authorized in writing will be required to extend time. Debtors should not be taken by surprise by an ambiguous or undated writing which might be used to extend the period of limitation.

In section 20, there is always a dispute whether the payment was made on account of interest as such. Under the amended section, part payment of principal and payment of interest have been placed on equal footing. Similar amendment has been made in section 21. Authority of an agent to extend time under any of the sections referred to in this Bill must always be in writing and not oral.

I hope the proposed amendments, if passed into law, will considerably reduce litigation and the multiplicity of witnesses will be avoided.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 2nd July, 1923 :—

No. 24 OF 1923.

A Bill further to amend the Indian Income-tax Act, 1922, for certain purposes.

WHEREAS it is expedient further to amend the Indian Income-tax Act, 1922, for certain purposes hereinafter appearing; It is hereby enacted as follows :— XI of 1922.

Short title.

1. This Act may be called the Indian Income-tax (Further Amendment) Act, 1923.

Amendment of section 4, Act XI of 1922.

2. In sub-section (*2*) of section 4 of the Indian Income-tax Act, 1922 (hereinafter referred to as the said Act), for the words "shall be deemed to be profits and gains of the year in which they are received or brought into British India," the following words shall be substituted, namely :— XI of 1922.

"shall, if they are received in or brought into British India, be deemed to have accrued or arisen in British India and to be profits and gains of the year in which they are so received or brought."

Insertion of new Chapter VA in Act XI of 1922.

3. After Chapter V of the said Act the following Chapter shall be inserted, namely :—

"CHAPTER VA.

SPECIAL PROVISIONS RELATING TO CERTAIN CLASSES OF SHIPPING.

Liability to tax of occasional shipping.

44A. The provisions of this Chapter shall, notwithstanding anything contained in the other provisions of this Act, apply for the purpose of the levy and recovery of tax in the case of any person who resides out of British India and carries on business in British India in any year as the owner or charterer of a ship (such person hereinafter in this Chapter being referred to as the principal), unless the Income-tax Officer is satisfied that there is an agent of such principal from whom the tax will be recoverable in the following year under the other provisions of this Act.

Return of profits and gains.

44B. (*1*) Before the departure from any port in British India of any ship in respect of which the provisions of this Chapter apply, the master of the ship shall prepare and furnish to the Income-tax Officer a return of the full amount paid or payable to the principal, or to any person on his behalf, on account of the carriage of all passengers, live-stock or goods shipped at that port since the last arrival of the ship thereat.

(*2*) On receipt of the return, the Income-tax Officer shall assess the amount referred to in sub-section (*1*), and for this purpose may call for such accounts or documents as he may require, and one-twentieth of the amount so assessed shall be deemed to be the amount of the profits and gains accruing to the principal on account of the carriage of the passengers, live-stock and goods shipped at the port.

(3) When the profits and gains have been assessed as aforesaid, the Income-tax Officer shall determine the sum payable as tax thereon at the rate for the time being applicable to the total income of a company, and such sum shall be payable by the master of the ship, and a port-clearance shall not be granted to the ship until the Customs-collector, or other officer duly authorised to grant the same, is satisfied that the tax has been duly paid.

Adjustment.

44C. Nothing in this Chapter shall be deemed to prevent a principal from claiming, in any year following that in which any payment has been made on his behalf under this Chapter, that an assessment be made of his total income in the previous year, and that the tax payable on the basis thereof be determined in accordance with the other provisions of this Act, and, if he so claims, any such payment as aforesaid shall be treated as a payment in advance of the tax and the difference between the sum so paid, and the amount of tax found payable by him shall be paid by him or refunded to him, as the case may be."

STATEMENT OF OBJECTS AND REASONS.

Some doubt has been expressed whether sub-section (2) of section 4 of the Indian Income-tax Act, 1922, fully secures the intention of the Act that the profits and gains of a business accruing or arising out of British India to a person resident in British India should be assessed when received in, or brought into, British India. Clause 2 of the Bill is intended to place the matter beyond dispute.

2. Difficulties have arisen in the assessment to income-tax of occasional shipping belonging to, or chartered by, persons or companies whose principal place of business is not in British India and who have no regular agents in India from whom the tax will be recoverable in the following year. Clause 3 of the Bill accordingly makes special provision for the assessment of the profits and gains of such shipping.

CONSTRUCTION OF A NEW BRIDGE BETWEEN CALCUTTA AND HOWRAH TO REPLACE THE PRESENT FLOATING BRIDGE.

GOVERNMENT OF BENGAL.

MARINE DEPARTMENT.

CALCUTTA, THE 21ST JULY 1923.

RESOLUTION—No. 2466 Marine.

IN Bengal Government Resolution No. 334 Marine, dated the 29th January 1923, a Committee representative of the chief interests concerned was appointed to consider proposals for financing the construction of a bridge of

the cantilever type which had been recommended by the Committee of Engineers appointed in November 1921. In addition to drafting definite proposals for meeting the estimated cost of a bridge of this type, with its approaches, the Committee was requested to report on the ability of the trade and people of Calcutta and its neighbourhood to bear the charges which would be involved.

2. The Committee have submitted their report which, together with the notes of dissent recorded by some of the members, is published for general information. The report indicates that it will be financially possible to follow the recommendation of the Committee of Engineers in favour of the construction of a cantilever bridge, and Government will now proceed with the necessary measures for the construction of such a bridge. They will be glad to receive any comments from public bodies or others interested, in regard to the recommendations for financing the bridge.

By order of the Governor in Council,

A. MARR,

Secretary to the Government of Bengal.

NEW HOWRAH BRIDGE.

Report of the Finance Committee.

In Bengal Government resolution No. 334 Marine, dated the 29th January 1923, this Committee was appointed to furnish assistance to Government in drafting proposals to meet the cost of a bridge between Calcutta and Howrah of the cantilever type a type which had been recommended to Government by a Committee of Engineers appointed to advise Government as to the most suitable type of bridge to be constructed. The Committee were also requested to furnish their views on proposals which had been drawn up for the levy of a cess on passengers and goods coming into and leaving Calcutta, and in particular on the ability of the trade and people of Calcutta and its neighbourhood to bear the charges incidental to the construction and maintenance of a bridge of the proposed cantilever type.

2. The Committee of Engineers had estimated the cost of a bridge of the cantilever type at £2,000,000. This represented the cost of the bridge itself and did not include the expenditure necessary for the acquisition of land, the construction of the approaches and any compensation necessary to interests injuriously affected. We have had placed before us a more detailed statement [including (1) an estimate of the actual cost of construction of the bridge itself, furnished by Mr. Palmer, Consulting Engineer to the Secretary of State, (2) detailed estimates for the acquisition of land and the construction of approaches, and (3) the claims for compensation put forward by the interests injuriously affected], which gives the total expenditure required in connection with the construction of the new bridge as Rs. 6,38,00,000. In this estimate, compensation for interests injuriously affected has been entered at the full amount claimed. This expenditure will have to be met by means of a loan, and in our opinion a suitable period for a loan for a work of this character should be 60 years The annual charges on account of interests and sinking fund will depend on the rate at which the loan can be raised. We have been advised that with a guarantee from Government, which we assume would be given, or if Government themselves raised the loan, it should be possible to raise the amount required at not more than 5 per cent. On this basis an annual payment of approximately Rs. 35 lakhs would be required

There are considerations, however, which, in our opinion, make it unlikely that Rs 35 lakhs will really be needed annually. As has been stated, the estimate above given includes the full amount claimed as compensation for interests injuriously affected. We feel justified, however, in assuming that these claims will not be fully entertained and that a considerable reduction is possible. There is a likelihood, too, of cheaper money in the near future and it has been indicated to us that there is also the possibility of cheaper construction Taking all these facts into account we are of opinion that a sum of approximately Rs. 31 lakhs should suffice to meet the charges for the construction of a cantilever bridge. The problem before us then is to consider whether and by what means this sum could be raised

3. The cost of the present bridge is met by a terminal tax of 2 pies per maund of goods (excluding coal and salt) carried into or out of Howrah railway station on the East Indian Railway, and by an annual contribution from the Bengal-Nagpur Railway. This is, however, only for upkeep. The initial cost of the bridge was met by a toll on passengers, animals and vehicles using the bridge, by a fee of 2 pies per maund on goods and of 3 pies per passenger conveyed on the East Indian Railway to and from Howrah, and by the earnings of ferry steamers. The passenger tax and the local toll were abolished in 1888, when the capital cost and interest had been paid off The charge for the bridge was thus mainly borne by those using the bridge

4. We were furnished with proposals for raising the amount necessary for the new bridge by the imposition of a cess on goods imported into and exported from Calcutta by rail and river, and a cess on passenger traffic by the various railways and steamers. It was maintained in justifiction of these proposals that they represented the best method of carrying out the principle which should govern the financing of this bridge, viz., that the cost should be speard over a very wide basis, seeing that the bridge was a necessity for Calcutta as a whole, for all sections of the community and for the social, commercial and industrial life of Calcutta. This principle we consider sound, but we are not prepared to agree that the course suggested is the best method of carrying it out. Agreeing as we do that the bridge is required for Calcutta as a whole, we consider that it is primarily a civic necessity, and as such should ordinarily be a charge on the population generally in accordance with recognised methods by which municipal activities are financed--in other words, a charge on the ratepayers. We realise that it would not be possible at the present time to impose a charge of this magnitude on the ratepayers of Calcutta and neighbouring municipalities, but we consider that a levy framed on the rateable value of these municipalities should form the basic element in making up the amount required to meet the charges on account of the bridge.

5. It has been, and will be, urged that the Calcutta Corporation is faced with large activities in the matter of water-supply, drainage, etc., which may necessitate an increase in the rates. But a new bridge between Calcutta and Howrah is a matter of no less urgency than any of the municipal schemes now in contemplation, and there is, in our opinion, no getting out of the fact that the liability for the new bridge, whether it be of the cantilever or any cheaper type, should rest in the first instance on the people of Calcutta and its neighbourhood. We do not propose that the Calcutta Corporation shall be required to contribute a specific sum or a specific proportion out of their revenues. We consider that, for the purposes of the bridge, there should be a separate tax on the ratepayers of Calcutta and its neighbourhood, based on the existing system of municipal taxation, and we should bring in the municipal authorities in this matter only in requiring their machinery for the purposes of collection. In our opinion, it will be reasonable, and we do not think we are making an excessive demand, that a tax of one per cent. on the rateable valuation of Calcutta should be imposed for the purpose of the bridge, with a tax on a similar basis in the suburban municipalities. We include Howrah in this connection. Although it is urged by the representative of the Howrah Municipality that for Howrah itself a bridge is not a matter of vital necessity, the advantages that will accrue to this town from the new bridge will be considerable and Howrah cannot escape contributing its share. We are advised that on existing valuation a sum of about seven lakhs can be raised from these sources. This is less than a quarter of the required amount, and we do not think that this is an unreasonable demand to make under present conditions on the citizens of Calcutta and its neighbourhood.

6. Having thus determined what in our opinion should be the basic element in the levy, we have given consideration to various other suggestions for the realisation of the balance.

7. First and most important among these is that which was originally put before us—a cess on trade. It may be urged that the Howrah bridge benefits only the trade which passes over it, that, precisely because this was so, no other interest were asked to pay towards the construction or maintenance of the present bridge, and that consequently no other traffic should be made to contribute towards the new one. But a bridge between Howrah and Calcutta is a necessity to the general trading and commercial life of both cities and on this ground and because it is desirable to spread the expenditure over a very wide basis, we consider that the trade of Calcutta generally should, as far as possible, be required to contribute. There is, moreover, the important practical consideration that any addition made to the railway charges on traffic to and from Howrah and depôts on the Howrah side of the river is automatically applied to traffic carried over the East Indian Railway to and

from stations on the Calcutta side of the river If, therefore, the latter traffic were excluded from the operation of the cess imposed for the purpose of financing the bridge, it would nevertheless have to bear the additional burden, the only difference being that the extra amounts thus paid by it would be appropriated by the railway instead of by the bridge authority. We believe that a cess on goods imported into, and exported from, Calcutta is feasible. Such a cess is already borne by the traffic which is received or despatched by the East Indian Railway and there is not, in our opinion, any reason why it should not be made universal We recommend, subject to the qualifications mentioned later, such a cess on all traffic brought into or exported from any railway station within Howrah and Calcutta, or brought into or exported from the port of Calcutta by boat or inland steamer Imports and exports by sea we would not assess- this would be tantamount to an addition to Customs duties and, therefore, open to objection Our proposals would, therefore, leave untouched that large amount of traffic entering through the Port of Calcutta which is absorbed in Calcutta itself. On the principle that trade generally should pay its share towards the construction of the bridge, this traffic should not escape and, in our opinion, it would bear a cess with no more difficulty than the traffic by rail. But we can suggest no practicable method of differentiating at the time of import between goods to be absorbed in Calcutta and other goods, and therefore consider the collection of the cess on this traffic to be impossible. It has been objected that the collection of a cess on goods carried by country boat will be no less impracticable, but we consider that it can be done without difficulty through the medium of the Port Commissioners' establishment. A cess on road traffic would demand an excessive organisation and create much inconvenience and we do not recommend it. In the original proposals put before us a cess at 3 pies per maund was suggested In our opinion this would be too heavy an impost The existing rate on the East Indian Railway, 2 pies per maund, has been based on what the traffic has proved able to bear. We see no reason why, if it is required, this rate should not be made universal, but if our other suggestions for the collection of the balance are approved, it will probably be necessary to impose a rate of only one pie per maund The qualification necessary to our general recommendation are that salt and coal, which are already exempted, should continue to be so and that manganese should be added to this class although now assessed to the terminal tax.

8 The foregoing recommendation has reference solely to what is generally known as goods traffic. There is, however, a not inconsiderable traffic in parcels. This is of two classes—railway parcel traffic and postal parcel traffic. It has been urged that, following our conclusions as regards goods traffic a cess might suitably be imposed on parcels. While we agree that this would prove a useful source of income, we feel that it would seriously interfere with local retail trade, while the difficulties of collection would be considerable. We therefore hesitate to recommend it.

9. Following the principle that the basis of taxation should be made as wide as possible, we recommend the taxation of passengers by rail to and from stations in Howrah and Calcutta. A tax of 6 pies per passenger is already imposed for the benefit of the Calcutta Improvement Trust on--

(*a*) Every passenger by railway brought to or taken from any station in the Calcutta or Howrah municipalities, provided the journey begins or ends outside a radius of 30 miles from Calcutta (*vide* section 83 of the Calcutta Improvement Act, 1911).

(*b*) Every passenger by inland vessel brought to or taken from any landing place in the Port of Calcutta within 5 miles of Government House, provided the journey begins or ends outside a radius of 30 miles from Calcutta.

We do not consider that an increase of this tax to 9 pies per ticket (3 pies to be retained for the bridge) would create any appreciable hardship, while a flat rate of 3 pies per ticket is not an unreasonable charge on persons travelling within the 30-mile radius. It may be necessary to vary both the amount of the charge and the method of applying it in respect to short

distance suburban passengers, who travel on monthly tickets issued at concession rates. Such modification will not materially affect the financial result.

10. Passengers by sea do not come within the scope of taxation for the Calcutta Improvement Trust, but we consider this a legitimate source for the purposes of the bridge—a tax of 8 annas per person would not press unduly.

11. Opinions differ as to the advisability of imposing a tax on passengers by the ferry service of the Port Commissioners, the objections being mainly on the ground that these passengers are chiefly working class people, who could not bear the additional impost without hardship. There seems, however, little distinction between such passengers and, the short journey passengers travelling third class on railways, and when a cess of 3 pies is proposed to be levied on the latter, there seems no ground why a similar charge should not be paid by the former. We would impose a 3 pies cess in cases where the fare for the single journey is one anna or more.

12. There remains for consideration in the matter of taxation the case of tramway passengers. The latest designs for the new bridge provide for two separate tramway tracks, one on either side of the bridge. In 1914, when consideration was given to the financing of the proposed new bridge—then estimated to cost one crore of rupees it was suggested that the Calcutta Tramways Company should contribute Rs. 25,000 per annum. The Tramways Company did not accept this suggestion, but intimated their readiness to pay a track rent of Rs. 4,000 per mile of double track and to renew and repair the road surface of the bridge between the tramway and 18 inches beyond the rails on each side. They further indicated their readiness to pay a sum towards the construction of the bridge, but left this for further consideration, pending Government's views on their suggestions. We have seen the Joint Managers of the Company and they have repeated the previous offer as regards track-rent, but they are not prepared to make any statement as to a contribution towards the capital account for construction. We discussed with them suggestions that had been made for a cess on tramway passengers, but found them strongly opposed to any such taxation—even in the case of passengers travelling over the new bridge. In their opinion, a traveller from Howrah to Calcutta would prefer to walk across the bridge rather than pay for the comfort of being conveyed across the bridge. With this view we are unable to agree. With the new bridge the journey from Howrah to Calcutta and *vice versa* will be longer and involve climbing a long slope at one end, and the employee of an office in the vicinity of Clive Street or Dalhousie Square will be quite ready to use the tram when he can get it all the way between Howrah and his office.

13. We realize, however, that a surcharge on tramway passengers may prove of little value unless accompanied by a toll on foot passengers. We do not favour the imposition of tolls, if it can be avoided, and we would prefer therefore a direct contribution from the Tramways Company. The traffic of this Company should increase very considerably and the linking up of the Howrah and the Calcutta systems should prove of great advantage to the Company. The Company will derive great benefit from the new bridge; and we do not think that the payment of a track rent of Rs. 4,000 is at all commensurate with the benefits that will accrue to them. A contribution of Rs. 50,000 per annum is the least that we should expect from the Tramways Company.

14. These constitute our suggestions in regard to the items of taxation that can be imposed for the purposes of the bridge. They cover the contributions which can be realised from the public and trade. There are certain contributions, however, which may also be expected from other sources. In the scheme for financing the new bridge set out in Bengal Government resolution No. 2151 Marine, of the 18th June 1914, it was suggested that the local Government should contribute a sum of one lakh annually, or roughly, one-sixth of the total annual contributions towards the construction of a bridge estimated to cost one crore. In making this

suggestion, Government stated that while they did not consider it would be justifiable to construct the new bridge at the expense of the general tax-payer and were consequently not prepared to take upon themselves the whole cost of providing it, their interest in Calcutta was so great that they were prepared to bear a reasonable proportion of the expenditure to be incurred. Following on this pronouncement, we should expect that the Government of Bengal will bear a similar proportion of the charges for the new bridge, *i.e.*, five lakhs of rupees. From the Imperial Government we should also expect some contribution and we base our contention on this score on the ground that they are users of the bridge in respect of postal and military traffic. As a further argument it might be observed that the Imperial Government derive a large amount of their revenues from the Port of Calcutta in the shape of Customs duties and should therefore make some contributions towards the construction of a bridge which will facilitate largely the trade that brings in this revenue.

15. The financial effect of the various suggestions that we have outlined above we estimate as follows:—

	Rs.
Bridge tax on Calcutta and neighbouring municipalities	6,00,000
Bridge tax on Howrah	1,00,000
Levy on goods traffic by rail and river and boat at 1 pie per maund	7,00,000
Terminal tax on passengers by rail at 3 pies ...	5,00,000
Tax on passengers by sea at 8 annas ...	1,00,000
Tax for passengers by the Port Commissioners' Ferry Service	1,20,000
Tramway track rent	50,000
Contribution from the Government of Bengal ...	5,00,000
Contribution from the Imperial Government ..	5,00,000
Total ...	31,70,000

In respect of taxation we consider the proposals, that we have suggested, to be practicable. In the result their combined effect is to provide for the sum required to meet the necessary loan for the construction of the bridge.

As regards maintenance, the charges will be small during the earlier years of the life of the bridge, and it may be expected that by the time the bridge is constructed the income from the varying sources above mentioned will suffice to meet not only the requirements of the loan, but also maintenance charges. There is thus ample provision to meet both the cost of a cantilever bridge and its maintenance. The proceeds of the contributions and cesses that we suggest will as time goes on, with the increase from the bridge tax that may be expected from the increased annual values of the municipalities, more than cover the annual necessary outlay, and it may therefore be unnecessary in future years to impose taxation to the full extent suggested. Holding, however, as we do that the basic element in any scheme for financing this bridge should be through the medium of a bridge tax on the ratepayers of the various municipalities, we recommend, and on this point we lay strong emphasis, that this particular tax should be maintained at the fixed rate suggested, and that the relief that can be given should be in favour of the other sources of taxation—in particular, trade.

16. In conclusion, we desire to pay a tribute to the assistance given us by Mr Purcell, the representative on this Committee of the East Indian

Railway. Mr. Purcell died ,to our regret, before our deliberations were ended, but his services in the discussion of the various proposals and in the preparation of this report were invaluable

NEW HOWRAH BRIDGE (FINANCE) COMMITTEE.

Note by Mr. C. C. Sinha, M. A., B. L., Chairman, Howrah Municipality.

Under the terms of reference to the Committee, strictly speaking, I am precluded from considering the suitability or otherwise of the cantilever type of bridge as recommended by the Committee of Engineers, but it may be necessary with a view to solve the financial difficulty to consider whether a cheaper type of bridge might not do. Recently a note was circulated by Sir Bradford Leslie suggesting the erection of twin bridges at a much lesser cost, and it has been shown by comparison with the cantilever type the advantages and disadvantages of the twin bridges. Now that we are hard up to find finances for the cantilever type of bridge, and as Sir Bradford's scheme would be far less expensive, it may well be considered whether or not we should go in for the cheaper type. The principle enunciated in the draft report, that the basic element in any scheme of financing the bridge should be through the medium of a bridge tax on the ratepayers of the various municipalities, cannot be accepted, as the bridge will benefit trade and commercial interests in Howrah and Calcutta more than the ordinary ratepayers. I think, therefore, that the interests most benefited, viz., trade, should pay for the bridge. During the discussion many of the members pointed out that trade could not be further taxed, though the draft report assumes that it can be. And if the bridge is to be constructed by putting undue pressure on trade, thereby affecting not only trade but also the public at large, I think that, not only in the interest of trade, but also in the interest of the general public, we should have a cheaper type of bridge, so that the trade and the general public may have to bear a far smaller amount of taxation than it would be necessary if we stick to the cantilever type.

2. The draft report admits that the bridge between Howrah and Calcutta is a *necessity* to the commercial life of both cities, and as such the trading and commercial interests should be taxed in the first instance, and the basic principle should be, as I have already said, taxation on or contribution by the interests materially benefited.

3. The people of Howrah, excepting the commercial classes, would not derive so great an advantage as to make them bear the heavy burden of an additional bridge-tax. It might be pointed out that the cess on trade would fall to a large extent on Howrah and Calcutta, and I think that instead of levying a direct tax on the people of Howrah and Calcutta, which is surely to lead to discontent and consequent agitation, it would be better to increase the cess on goods traffic to one-and-a-half pies per maund, if not two pies per maund. I may further point out here that the proposed tax on railway parcels and postal parcel will, to a certain extent, fall upon the people of Howrah and Calcutta, and there is also no guarantee, if the Tramway Company pays the track rent, that it would not increase the tramway fares. Thus it would appear that the people of Howrah and Calcutta will have to pay indirectly a considerable amount for the bridge, and it would not be fair to levy a direct tax on the people of those towns.

4. It is proposed to increase the terminal tax and thus to realize a certain amount through the railways. I do not see why the Imperial Government should not contribute more than what has been proposed in the draft report. The Imperial Government, I understand, derives from the Customs duties in Calcutta a revenue of several crores, and I should think that it should pay 10 lakhs a year for the bridge, which will improve the Port and facilitate largely the trade that brings in so much revenue, apart from the question of the use of the bridge for military and postal purposes. I think from this point of view the bridge is an Imperial necessity.

5. Coming from the consideration of the general principles to a consideration of the particular case of Howrah, I am emphatically of opinion that no additional taxes should be levied on the people of Howrah on account of the bridge. The people of Calcutta are deriving a benefit on account of a

portion of the terminal tax being set apart and utilized by the Calcutta Improvement Trust for the improvement of the town of Calcutta, while Howrah gets no portion of this for its improvement. It is well known that many important schemes are being held up for want of funds, and it has been practically settled that the Improvement Trust will be introduced into Howrah, and at the conference held on the 2nd August 1922, under the presidency of the Hon'ble Minister in charge of the Local Self-Government Department, there was a sort of a promise that some revenue might be obtained by increasing the terminal tax. The proposed appropriation of the increase of the terminal tax for the bridge closes one of the principal sources for financing the Improvement Trust in Howrah, for I do not think that the railway companies or travelling public would agree to a further increase in the terminal tax for the Improvement Trust in Howrah As the Improvement Trust is going to be introduced into Howrah, and the ratepayers of Howrah have to be taxed for that purpose, and probably taxed higher than originally proposed, in the absence of any money from the terminal tax, the bridge-tax should not be imposed on them. I might here point out that Howrah can fairly lay a claim to a portion of the terminal tax, as it is levied not only on the people who come to Calcutta but also on a considerable number of people who come to Howrah, and work here in the mills and factories. Therefore practically by appropriating the whole of the increase in the terminal tax for the bridge, Howrah is being deprived of a portion of her dues in this respect, and as such Howrah may well claim exemption from the imposition of the bridge-tax Calcutta on this point stands on a separate footing because Calcutta is getting a portion of the terminal tax on account of the Improvement Trust, from which it would not be deprived because of the additional levy on account of the bridge Therefore Howrah's claim to be exempted from the bridge-tax is certainly better than that of Calcutta.

6. So far as Howrah is concerned, leaving aside the question of civic amenities, which in these days of rise in prices may well be left out of account, at least so far as the majority of the people are concerned -who are ordinarily middle class people already burdened with a heavier rate of municipal taxation than that of Calcutta—the general public, except perhaps a portion of the people residing in the central part, would not be much benefited by the bridge as a means of communication between Howrah and Calcutta. The bridge, if anything, is a great necessity for the various mills and factories and railways on this side of the river, and I do not see why these commercial firms and railways should not pay for the same.

7. There will be a distinct disadvantage and loss of income to the Municipality, at least for many years to come, and loss of service to many of the residents of Howrah, after the bridge is constructed, as the fixed cantilever type of bridge without opening for ships will permanently prevent not only all possibilities of the expansion of the Port northwards, but also the existing dockyard would have to be closed on account of these disadvantages.

8 The incidence of taxation in Howrah is considerably higher than that of Calcutta. The amount of taxation varies from 24 per cent. to 28½ per cent. and the Commissioners of Howrah could not levy an educational cess, as they knew very well that the ratepayers of Howrah have to be taxed for the Improvement Trust. It would be a great hardship on the people of Howrah when the rates will have to be increased for the improvement Trust, but as it is necessary to have an Improvement Trust, the people of Howrah will have to bear additional taxation on that account, and it would not be possible to burden them for any other purpose. As I have already stated, excepting the people in the central portion of Howrah, the people of the northern and southern portions have very few occasions to use the bridge for going to and coming from Calcutta, so general taxation on the whole population would be improper. I am quite sure that the people of Howrah are quite unable to bear any additional taxation for the construction and maintenance of the bridge. If the bridge is required for the people, and if the people cannot bear the expense of such a bridge, I should think that we

should rather abandon a bridge of such a costly type than tax the people to an extent which they cannot bear, and thus create discontent

9 Coming now to the figures as given in the draft report, even if we are to provide funds for the cantilever type, that can be done without levying an additional tax on the people of Howrah, and possibly also on those of Calcutta, as the following table will show. –

		Rs
(1)	Levy on goods traffic by rail and river and boat at 1½ pies per maund . ..	12,37,000
(2)	Terminal tax on passengers by rail at 3 pies ...	5,40,000
(3)	Tax on passengers by sea at 8 annas .	1,20,000
(4)	Tax on railway parcels at 1 anna per rupee ..	3,50,000
(5)	Tax on postal parcels at 1 anna per rupee ...	3,50,000
(6)	Contributions from the Government of Bengal	5,00,000
(7)	Contributions from the Imperial Government ...	10,00,000
(8)	Contributions from the Port Commissioners ..	2,00,000
	Total ...	43,47,000

We do not require so much as Rs 43,47,000 per year for the annual repayment and the cost of maintenance. Rupees 37,00,000 per year is all that is required. Even if we reduce the Imperial Government's grant by 5 lakhs, a sufficient fund can be provided for the annual repayment and the cost of maintenance without levying an additional tax on the people of Howrah or Calcutta for that purpose.

It now appears that we require only Rs. 31,70,000. So in the figures given in my note, dated the 16th May 1923, which may be regarded as my note of dissent, some modifications might be made without unduly taxing the goods traffic and I would, therefore, suggest that if the levy on goods traffic be at the rate of 1 pie only and also if the cess on parcel be omitted, then even, provided the Imperial Government pays about 8 lakhs we might meet the cost of such a bridge without taxing the people of Calcutta and Howrah I am still of opinion that we should go in for a less costlier type of bridge

Note of dissent by Mr. E. J. Oakley.

As requested by the Chairman of the Howrah Bridge Committee at the meeting, held on 8th May, to consider the draft report to be submitted to Government, I submit herewith a note of dissent from the general recommendations embodied therein.

First, I would say that I do not for a moment dispute the urgent necessity for a new bridge connecting Calcutta with Howrah—that is an obvious fact that admits of no dispute. What I wish to urge is that the present time of financial stringency and trade depression throughout the world is a particularly inappropriate one to launch out into enormous and largely unknown capital expenditure which, if the method of finance proposed is adopted, must of necessity impose an additional burden on the trade of the port for the next 60 years.

I object entirely to the principle of the method suggested for providing "service" for the loan or loans that will be required for what is, after all, a purely "civic" necessity, by an impost on trade, whereby an added burden is placed upon commodities from which a very large portion of Imperial and Provincial revenues is already derived, in the form of import duties and other forms of direct and indirect taxation

In addition to such taxation the trade of the port has already to bear the normal port charges and it is interesting to study the steady and alarming increase in such charges since pre-war days The following figures were given during the course of the Committee's deliberations, and are eloquent :—

Calcutta Port Commissioners' Charges.

Year	Amount per ton
	As.
1913-14	9 9
1914-15	10 9
1916 17	14 1
1917-18	14 7
1918 19	17 9
1919-20	20·3
1920 21	22·5
1921 22	27·22
1922-23	23·1

The abnormally high figure for 1921-22 was due to special non-recurring causes, but eliminating these, it would have been reduced to, say, 22 ·0 annas, or approximately the same as the previous year.

The above figures speak for themselves and it is common knowledge that millions are being spent on new docks and general improvement of port facilities, all of which will have to be paid for. It is reasonable therefore to assume that these charges are at any rate more likely to increase than decrease

The proposed impost of an additional one pie per maund may not appear a very large sum, but, owing to the grave difficulties in collection that are certain to arise in the case of boat traffic, it is very doubtful whether, if imposed, the tax will produce anything like the sum anticipated, and then, what is more likely than that, another pie will be added to the tax to make up the deficit.

A further grave injustice arising out of a tax of this nature on goods came to light as a result of the special cargo surcharge imposed as a war measure, apart from the particularly unfair and objectionable one of imposing the duties of tax collectors upon private carrying companies. This was the fact that in many cases, owing to a competitive route being available, any increase on rates equivalent to the tax was impossible, with the result that the tax fell upon, and had perforce to be paid by, the carrying companies themselves.

To give a specific instance, the whole of the very large traffic from Eastern Bengal, Cachar and Sylhet, and Assam, brought into Calcutta by the vessels of the inland steamer companies for export would be liable for this tax, whereas

goods from these districts carried to Chittagong by the Assam-Bengal Railway competitive route would be free This would be, in effect, a direct subsidy paid by the trade of Calcutta to the port of Chittagong, its keenest competitor for the important jute and tea export trade!

The only way to avoid this would be for the rates to be kept as at present, and the tax to be paid by the unfortunate carrying companies themselves, as was forced upon them in many instances in connection with the war surcharge on cargo referred to above.

To my mind the question of financing the proposed bridge is one solely for the three parties who are those principally interested, namely, the Corporation of Calcutta and the surrounding Municipalities, the Government of Bengal, and the Imperial Government

Primarily the Calcutta Corporation and the Howrah Municipality are the two most concerned, and undoubtedly the correct method of financing the new bridge would be for these two bodies, to raise the necessary funds, the "service" for which would fall upon the rates It can, however, quite logically be argued, in fact it has been so argued in Committee, that the Imperial Government, which derives so large a portion of its revenues through the Port of Calcutta, and the Government of Bengal, of which Government Calcutta is the capital, should equally share in the necessary burden

If the burden be equally divided a simple sum shows that the required amount can be provided as follows :—

	Rs.
Corporation of Calcutta and surrounding municipalities	14,00,000 (equals 2 per cent. addition to the rates)
Government of Bengal	9,00,000
Government of India	9,00,000
Annual "service" required	32,00,000

Or if the other sources of revenue recommended by the Committee, excluding goods, are taken into account, the proportions would be as follows :—

	Rs.
Passenger terminal tax	5,00,000
Passengers by sea tax	1,00,000
Port Commissioner's ferry service	1,20,000
Tramway tract rent	50,000
2 per cent. on Calcutta and Howrah rates	14,00,000
Government of India	5,00,000
Government of Bengal	5,50,000
TOTAL ..	31,70,000

We have been eloquently told by the civic representatives on the Committee, however, that it is, "impossible" for them to provide anything, and that the rates are already as high as they can go in view of the heavy expenditure on improved water supply, sanitation, etc, with which they are faced

I do not think, however, that an extra 2 per cent. on the rates can be considered as very excessive in return for the general improvement in rateable values that is bound ultimately to follow improved communications.

It is not improbable that the two Governments concerned will join in the almost universal chorus of *non possumus*, in respect to their suggested contributions, that has characterised the meetings of the Committee throughout.

The inevitable conclusion that has been forced upon me, and I gather a considerable proportion of the other members of this Committee, is a definite one, namely, that at present time, and probably for many years to come, Calcutta cannot afford a cantilever bridge of the size and cost of that proposed, and I subscribe unhesitatingly to such conclusion

What is the alternative? To my mind it is a simple one, namely to cut our coat according to our cloth, and replace the present bridge with another similar one. Although this is, strictly speaking, outside the terms of reference, I venture to submit such alternative as worthy of the fullest consideration.

A floating bridge capable of carrying all the traffic that is likely to arise during the next 25 to 30 years can be provided, we are told, for some £1,600,000 against £4,000,000, the "estimated" cost of the cantilever one. This being so, the annual service required would amount to some Rs. 13,00,000 at 5 per cent. as against Rs. 36,00,000 for the cantilever bridge. Proceeding on the former lines this "service" could be easily met as follows:—

	Rs.	
Calcutta and Howrah Corporations ..	7,00,000	(1 per cent. only on present rates)
Government of Bengal	3,00,000	
Government of India	3,00,000	
TOTAL ..	13,00,000	

If, however, the recommendations of the Committee as regards a tax on passengers were given effect to, but excluding goods, the problem becomes a still more simple one, namely,—

	Rs.
Tax on passengers by rail	5,00,000
Tax on passengers by sea	1,00,000
Tax on Port Commissioners' ferry service	1,20,000
Tramway tract rent	50,000
Contribution from Government of India	3,00,000
Contribution from Government of Bengal	2,30,000
TOTAL ..	13,00,000

or sufficient without increasing Municipal rates.

I do not object to a passenger tax in principle, for the simple fact that the person interested is in a position to protect himself to a certain extent by not travelling, or reducing his travelling to the point at which the tax does not particularly hurt him.

Whether this applies however to the short distance ferry trafic run by the Port Commissioners is very doubtful and I would be in favour of eliminating this source altogether and making up the required amount by increased contributions from the Local and Imperial Governments.

The case of goods traffic is very different, it is the commercial life blood of the community, and anything in the nature of an arbitrary tax, over and above the actual cost of carriage, and a reasonable profit to the carrier, is an extremely dangerous expedient, with results that cannot be forseen or foretold.

Note of dissent by Mr. S. N. Mallik, Officiating Chairman, Corporation of Calcutta.

The Committee have stated in their draft report that the new bridge is primarily a civic amenity, indeed a necessity, and that the liability for it should rest in the first instance on the people of Calcutta and its neighbourhood. In the opinion of the Committee a levy on rateable value in Calcutta and Howrah should form the basic element. I altogether dissent from this view. A new bridge between Calcutta and Howrah will serve not merely the people and trade of Calcutta and its neighbourhood, but also the thousands of people from outside who daily swarm into the city to enjoy its amenities, and profit by the opportunities it affords; it will also serve the enormous trade and commercial interests which radiate from Calcutta. In fact, its benefit to trade and commerce will far transcend the limits of the city or the province and I maintain that the new bridge is not merely a local necessity but is a provincial and an imperial concern. No scheme of finance which does not recognize this cardinal fact will ensure a just and equitable incident, and the proposals of the Committee are, in my opinion, vitiated by their initial mistake of regarding the bridge only in the nature of a local improvement.

2. An annual sum of Rs. 35 lakhs will be required to pay the interest and sinking fund charges on account of the new bridge, but the Committee's proposals however aim at raising an annual revenue of Rs. 41½ lakhs, of which about Rs 20¾ lakhs or 50 per cent will have to be contributed directly or indirectly by the people of Calcutta in some shape or other—Rs. 10¾ lakhs will be contributed by the people outside; Rs. 5 lakhs by the Government of India. note below how the figure of Rs. 20¾ lakhs to be contributed by the people of Calcutta is arrived at The proposed levy of 1 per cent. on rateable value is a direct tax on property in Calcutta and is expected to yield Rs. 6 lakhs. The levy on goods traffic by rail, river, and boat is expected to yield Rs. 8¼ lakhs, but about three-fourths of this will probably be in respect of goods intended for the people of Calcutta who will therefore be practically paying about Rs. 6¾ lakhs. The tax on coal consumed locally (viz., Rs 3,20,000) is a direct contribution by the people of Calcutta. It may be taken that one-fourth of the terminal tax (Rs. 5,40,000) and half the tax on parcels (Rs. 7 lakhs) will be paid by the people of Calcutta. Although the revenue will be raised under various heads, it should be noted that it will come out of the same pocket. If it is held that the provision of a new bridge is an urgent local improvement, then I submit that the ratepayers of Calcutta who now contribute 2 per cent. to the Calcutta Improvement Trust should be allowed to reduce it by half, the 1 per cent thus set free being utilized for financing the bridge. It would be grossly unfair to realize 2 per cent. from them towards local improvements which the Trusts are carrying out and still further tax them for other local needs.

3. I cannot too strongly emphasize the fact that the present resources of the Corporation are barely sufficient to meet the needs of a growing municipality, and that the unutilized margin of taxation amounting to 3½ per cent. of the rateable valuation will have to be drawn upon within the next few years to finance the scheme for the improvement of water-supply and the provision of a new drainage outfall. The Corporation have recently undertaken the responsibility for the improvement of primary education in Calcutta and may eventually have to levy an educational cess. The scheme for a City Veterinary Department has been approved, but has had to be kept in abeyance for want of funds along with several other projects of improvement. The municipalities of Cossipore-Chitpur, Maniktala, and Garden Reach have all been added to Calcutta and the Corporation will have to incur an expenditure of over a crore for their improvement. The people of Calcutta would probably never have acquiesced in the amalgamation if they had known that besides an increase of municipal taxation, they might have to pay a bridge cess, or bear other extraneous burdens. I am decidedly of opinion that the capacity of the ratepayers and the public generally of Calcutta will be taxed to the utmost during the next few years for ordinary municipal requirements, and that the imposition of any further serious burden on them cannot be thought of. In any case, I do not

consider that the proposals of the Committee secure a just and equitable incidence. While the people of Calcutta will be required to pay 50 per cent. of the annual cost, the Government of India who derive Rs. 17 crores a year from Customs revenue from Calcutta will pay only Rs. 5 lakhs which, in my opinion, is too small a proportion. I would suggest that it should be at least Rs. 10 lakhs a year. I made this suggestion in the Committee with the result that the Committee put down Rs. 5 lakhs which sum, in my opinion, very inadequately represents the Government of India's interest in the project.

4. The Port Commissioners should also contribute a substantial sum as the new bridge will afford greater facilities for the river traffic, and the cost of upkeep will be substantially reduced. Besides, a great deal of the trouble in connection with the design and type of the new bridge has arisen owing to the requirements of the Port Commissioners who are more vitally interested in the matter than anybody else, and it seems anomalous that they should contribute nothing. At an early stage of our deliberations the Committee thought that they should pay Rs. 2 lakhs and I would retain this figure.

5. If a satisfactory scheme of finance to meet the annual cost cannot be devised without imposing a disproportionate burden on the ratepayers and citizens of Calcutta, then I fear the idea of a cantilever bridge will have to be abandoned as being beyond available means and resources. It is true that this type was recommended by an Expert Committee of Engineers, but when the Committee examined the matter, the estimate for a cantilever bridge amounted to Rs. 3 crores as against Rs. 247½ lakhs for Sir Bradford Leslie's twin bridges of the floating type, the figures in either case being exclusive of the cost of land and compensation. The present estimate for a cantilever bridge amounts to Rs. 638 lakhs including cost of land and compensation and it is by no means certain that the Committee, if they had the revised figure before them, would still have recommended this type, irrespective of all financial considerations. In view of the enormous difference in cost between the two types and our obvious inability to finance the cantilever bridge, I think that the question of the type of bridge should again be examined in the light of the present estimate. My own opinion is that a cantilever bridge is much too costly for us and we cannot afford it, whatever may be its advantages from the traffic and the æsthetic points of view, and we should adopt a cheaper alternative. It should be remembered that the present bridge was erected in 1873-74 at a cost of about Rs. 27 lakhs, and in spite of all its drawbacks it has stood well for about 50 years. I venture to suggest that independent evidence be obtained in regard to the condition of the present bridge and the possibility of prolonging its life for a reasonable period by such repairs and improvements as may be found necessary. In the present condition of the money market, it will be a substantial gain if the expenditure on a new bridge can be deferred until conditions become easier.

Joint Note of Dissent by Babus Jadu Nath Roy and Norendra Nath Roy, Members, New Howrah Bridge (Finance) Committee.

The cost of the new bridge of the cantilever type and the expenditure involved for the acquisition of land, the construction of approaches and compensation to be paid to interests adversely affected by a permanently closed bridge, will amount to about six-and-a-half crores of rupees. The cost of the present bridge, which gave us very good service for over forty years, was only about twenty-two lakhs of rupees. It can be expected that a suitable bridge of the floating type, built to meet present day requirements, and having arrangements for occasional openings to allow vessels to pass, can be built at a cost not exceeding two-and-a-half crores. As this bridge can be built on the old site, it will not be necessary to go into additional expense for new approaches, nor will it be necessary to pay heavy compensation to any interest adversely affected, as there will be arrangements for opening the bridge occasionally to allow vessels to pass.

To finance a bridge of the cantilever type, costing about six-and-a-half crores of rupees, all sorts of impositions have been sought, including a separate tax on the taxpayers of Calcutta and its neighbourhood, and this will mean one per cent. added to the existing high municipal rates. Boat and steamer traffic, which will not be in any way benefited by the proposed bridge, will also be taxed.

The cost of a cantilever bridge has been taken to be about six crores and a-half. But as it is proposed to raise Rs. 41,55,000, the cost seems to be nearer eight crores and-a-half than six.

In our opinion Calcutta has not the ability to pay for such an expensive bridge of the cantilever type, and a bridge of less expensive type like the present floating bridge should be adhered to.

With that view, tenders should, without loss of time, be invited from reliable firms in Great Britain, the Continent and America.

Note of dissent by Mr. H. St. G. Gilmore, Traffic Manager, Eastern Bengal Railway.

It appears to me that at the present time of financial stringency and trade depression, and when many other works of public utility are being provided or projected, a bridge costing Rs. 6,38,00,000 is beyond the means of Calcutta and its neighbourhood to provide, and I would suggest that the question of providing a cheaper bridge be given further consideration.

2. The suggestions outlined by the Committee for meeting the cost of the bridge are such that liability to pay the tax would fall on the same person several times over which does not appear to be fair.

3. I am strongly opposed to goods traffic, parcels and passengers carried by Railways running into Calcutta (as opposed to those running into Howrah) being called upon to contribute towards the cost of the bridge. The proposed taxing of goods and passengers to and from stations on the Howrah side is designed to take the place of a bridge toll and is, therefore, on an altogether different footing to the proposed taxation of goods and passengers carried to and from stations on the Calcutta side. Moreover, as the Port of Chittagong is in competition with the Port of Calcutta, a Railway, such as the Eastern Bengal Railway, having its termini in Calcutta, would be at a disadvantage when competing with the Assam-Bengal Railway route if traffic to and from Calcutta were taxed, while traffic to and from Chittagong remained free, and would doubtless, in some cases, have to pay the bridge tax from its own revenue.

4. The Eastern Bengal Railway net revenue (after deducting working expenses) does not provide an adequate return on its capital cost. Any additional revenue that can be raised on the traffic of the Railway is accordingly needed to raise the return on capital and to help to provide funds for the many additions and improvements necessary. I would add that particularly in the case of passengers the rates at present charged are as high as the traffic can bear.

5. I am, therefore, of opinion that such sum as may be required for financing the bridge should be obtained from the following sources:—

(*i*) Corporations of Calcutta and Howrah,

(*ii*) Goods and passenger traffic to and from Howrah stations in lieu of bridge toll,

(*iii*) Tramway track-rent,

(*iv*) Government of Bengal, and

(*v*) Government of India.

REPORT OF THE NEW HOWRAH BRIDGE (FINANCE) COMMITTEE.

Note of dissent by Mr. G. D. Birla.

I regret that I cannot quite agree with my colleagues who have signed the main report.

I confess that I am not competent to give a considered opinion on the technical question of the particular type of bridge required between Howrah and Calcutta in place of the existing one. It has, however, to be borne in mind that the general body of ratepayers of Calcutta are against the proposal to construct a bridge at a cost of about 6½ crores of rupees. It may be that a cantilever bridge is the best suited to Calcutta from a purely engineering point of view; but the opinion of engineers ought not to be the deciding factor in arriving at a proper conclusion in a matter entailing such a huge expenditure.

The most important question for consideration in the matter, undoubtedly, is how to finance the scheme of a new bridge. In these hard days when business is so depressed, when very considerable distress prevails all over the province among the middle classes due to unemployment, when Government is pledged to a policy of economy and retrenchment, and when there have been such insistent demands for the provision of funds in so many useful directions for the benefit of the people, it will not be anything short of a wasteful luxury if such a huge amount as 6½ crores of rupees is devoted to the construction of the proposed bridge. I believe that this heavy expenditure would be an unnecessary burden on the people concerned. It appears to me, therefore, that if a bridge of the cantilever type cannot be built for a sum less than this, the proposal should be abandoned altogether as one beyond the reach of practical means. In a matter like the one under consideration, especially at a time like the present, the principle of cutting the coat according to the cloth you have, ought to be strictly adhered to.

I do not, of course, ignore the fact that Calcutta requires a new bridge urgently. If the present bridge is to be replaced by a new one, the latter should be a structure of a decent and enduring nature, and be worthy of this great city. I think, however, that this need of Calcutta ought to be met at a smaller cost than that estimated for the proposed cantilever bridge. If it is found possible to get such a bridge at a reasonable cost, we may have it. It might be, that if fresh estimates are made, it would be found possible to build a bridge of this type at a smaller cost than that estimated for. What appears to me objectionable is not the nature of the structure but its heavy cost, which is out of all proportion to the means of those who will be called upon to finance it.

The Committee of Engineers in their report estimated the cost of construction of the main structure of the bridge at about 2 million pounds sterling. Why this estimate has been raised since then to 2¾ millions I do not quite see. The report of the Committee of Engineers was drawn up in February 1922, and so far as my business experience goes the price of every material has fallen since then. In certain types of iron work prices have fallen even by 20 per cent. to 30 per cent. I am inclined, therefore, to the conclusion that the present cost of the main structure of a cantilever bridge may be brought down to a much lower figure than that estimated by the Committee of Engineers.

The most outstanding instance of over-estimation may, it appears to me, be found in the items under the heads, which deal with the "Valuation of land and structures" and the "Compensation claimed by various Docking Companies." The signatories to the main report also "feel justified" "in assuming that these claims will not be fully entertained and that a considerable reduction is possible."

There remains no doubt, therefore, that the estimates may be reconsidered with some advantage From the information available to me about the nature and extent of the interests of the various Docking Companies to be affected by the construction of the proposed cantilever bridge, I am inclined to believe that these claims are exaggerated. I think it my duty, therefore, to point out in emphatic terms that no concern or interest ought to be allowed to take undue advantage of the building of a new bridge between Calcutta and Howrah.

I believe that, if proper care is exercised and a strict investigation made, there are great possibilities of large reductions being effected in the cost of the new bridge, even if it be of a cantilever type. I feel gratified to find that my colleagues, who have signed the main report, have, on a second consideration, agreed to reduce the annual yield of taxation from over 38 lakhs of rupees to below 32 lakhs of rupees as suggested by me. But still our difference arises out of the fact that they do not suggest any solution as to what has to be done if it is not found possible to build a bridge of the cantilever type with the funds available under their recommendations. I desire to make it clear that if it is not found possible to build such a bridge at a reasonable cost, the idea of such a bridge should be dropped as a proposition not within the bounds of practical finance.

I regret I cannot quite agree with them as to the principle on which taxation has been recommended. The report after discussing various proposals for raising money states in paragraph 4 as follows :—

> " Agreeing as we do that the bridge is required for Calcutta as a whole, we consider that it is primarily a civic necessity, and as such should ordinarily be a charge on the population generally in accordance with recognised methods by which municipal activities are financed—in other words, a charge on the ratepayers. We realise that it would not be possible at the present time to impose a charge of this magnitude on the ratepayers of Calcutta and neighbouring municipalities, but we consider that a levy framed on the rateable value of these municipalities should form the basic element in making up the amount required to meet the charges on account of the bridge."

The report further states at the end of paragraph 15 :—

> " The proceeds of the contributions and cesses that we suggest will as time goes on, with the increase from the bridge tax that may be expected from the increased annual values of the municipalities, more than cover the annual necessary outlay, and it may therefore be unnecessary in future years to impose taxation to the full extent suggested Holding, however, as we do that the basic element in any scheme for financing this bridge should be through the medium of a bridge tax on the ratepayers of the various municipalities, we recommend, and on this point we lay strong emphasis, that this particular tax should be maintained at the fixed rate suggested, and that the relief that can be given should be in favour of the other sources of taxation—in particular, trade "

I am unable to subscribe to the dictum laid down by my colleagues. I admit that the proposed bridge would be of benefit to all classes of people in Calcutta and Howrah . But the people of these two cities are not the only parties to be benefited by it. The bridge would bestow immense advantage on the trade and commerce not only of Bengal but also of the adjoining provinces. This is a matter which cannot be ignored Further, under the scheme proposed by my colleagues, Calcutta has been asked to pay directly and indirectly in the following ways :—

(*a*) levy on goods traffic;

(*b*) terminal tax on passengers by rail;

(*c*) tax on passengers by sea;

(*d*) tax for passengers by the Port Commissioners' Ferry Service;
(*e*) tramway track rent;
(*f*) contribution from the Government of Bengal.

I do not find any justification, therefore, in taxing the ratepayers of Calcutta and the neighbouring municipalities over and above these. The argument used in the report that "a new bridge between Calcutta and Howrah is a matter of no less urgency than any of the municipal schemes now in contemplation and there is in our opinion no getting out of the fact that the liability for the new bridge whether it be of the cantilever or any cheaper type, should rest in the first instance on the people of Calcutta and its neighbourhood" is wholly gratuitous, inasmuch as the people of Calcutta and its neighbourhood will have to pay in various ways under the scheme proposed by my colleagues as indicated above even if no levy on the rateable value of Calcutta and Howrah is made.

The principle recommended in the report involves a very wrong policy. If this is adopted, it would paralyse the municipalities concerned to extend their activities in many beneficent directions for a very long time to come. These bodies are expected to undertake a lot of fresh responsibilities in the near future, such as new schemes for adequate supply of pure drinking water, the provision of new drainage schemes, the improvement of primary education and sanitation, the development of the added areas, etc., etc. The question as to wherefrom the Calcutta Corporation will find the money required for carrying out all these objects has not, I am afraid, received sufficient consideration from the authors of the report. The Corporation of Calcutta is, perhaps, the most important among the self-governing institutions in the province, and any scheme which is likely to hamper and obstruct its legitimate activities, cannot have the support of right-minded persons. Under the circumstances, I strongly oppose the proposal of imposing an additional burden on the municipal rates.

I am sorry that I feel compelled at this stage to advert to the original proposals of my colleagues as regards ways and means, which are given below :—

	Rs.
Bridge tax on Calcutta and neighbouring municipalities	6,00,000
Bridge tax on Howrah	1,00,000
Levy on goods traffic by rail and river and boat at 1 pie per maund	7,30,000
Terminal tax on passengers by rail at 3 pies ...	5,40,000
Tax on passengers by sea at 8 annas	1,20,000
Tax on railway parcels at 1 anna per rupee ...	3,50,000
Tax on postal parcels at 1 anna per rupee ...	3,50,000
Tramway track rent	50,000
Contribution from the Government of Bengal ...	5,00,000
Contribution from the Imperial Government ...	5,00,000
Total ...	38,40,000

It would thus be seen that my colleagues originally recommended a scheme of taxation which would have yielded a sum of Rs. 38,40,000, but on second consideration they have changed it in such a way as to yield a sum of Rs. 31,70,000 only. I am sorry that although they have agreed to my suggestion by reducing the amount from Rs. 38,40,000 to Rs. 31,70,000, they have still retained their proposal to tax the municipalities. If from the original scheme of taxation the municipalities concerned are excluded, and the other items are retained, there would be a reduction in the yield of taxation from Rs. 38,40,000 to Rs 31,40,000. It appears to me that the Indian public would much prefer the original scheme of taxation so amended to the revised scheme. I would, therefore, recommend the adoption of the original scheme which, after omitting the first two items amounting to Rs. 7 lakhs, would yield Rs. 31,40,000. In my opinion, this amount should be enough for the purpose for which it is required.

I may, however, point out that in making the above suggestions I have followed as closely as possible the channels of taxation recommended by my colleagues, although I am not quite convinced that there are not others which would not only be less objectionable, but be conducive to the best interests of the country. For example, I may mention the levying of a percentage on the freight earned by non Indian steamers entering and leaving the port of Calcutta I believe that if ¼ per cent. of such freight be collected as Bridge Tax it will yield not less than 5 lakhs of rupees per annum. I think that if any of the items be not satisfactory, the contribution from either the Government of Bengal or the Imperial Government should be increased, or the Port Commissioners be asked to make a contribution, or a percentage be levied on the freight earned by non-Indian steamers. I desire to make it clear, however, that in no case should the amount to be raised exceed 31½ lakhs of rupees per annum for a period of sixty years.

RESOLUTION ON THE BUDGET ESTIMATE OF INCOME AND EXPENDITURE OF THE HOWRAH BRIDGE FOR THE YEAR 1923-24.

GOVERNMENT OF BENGAL.

MARINE DEPARTMENT.

CALCUTTA, THE 20TH JULY 1923.

RESOLUTION—No. 2457Marine

READ—

The budget estimate of Income and Expenditure of the Howrah Bridge for the year 1923-24.

Receipts.—The estimate of receipts for the year is placed at Rs. 4,37,402, reproducing the revised estimate for 1922-23. The receipts from the East Indian Railway traffic for the year are estimated at Rs. 3,25,000, the amount shown in the revised estimate for 1922-23, against the budget estimate of Rs. 2,75,000 for that year.

Expenditure.—The estimate of total expenditure for the year is Rs. 3,95,819, which is Rs. 32,000 less than the revised estimate for the preceding year. The estimate shows appreciable decrease in expenditure under the heads "Stores" and "Maintenance and Repairs."

2. Against a debit balance of Rs. 48,981 shown in the budget estimate for 1922-23 a surplus of Rs. 9,580 is shown in the revised estimate and as a consequence the estimated debt of the bridge to the Port Commissioners at the end of 1922-23 is reduced after necessary adjustments from Rs. 5,33,523 to Rs. 4,98,184.

The Governor in Council notes with satisfaction this improvement in the financial position of the Bridge.

Resolved that the budget estimates for 1923-24 be approved under section 21 of the Howrah Bridge Act, 1871.

By order of the Governor in Council,

A. MARR,

Secretary to the Government of Bengal.

Harvesting of autumn paddy and jute has commenced in the Eastern Bengal districts towards the end of the month.

III. **State of standing crops.** The condition of sugarcane, autumn paddy, jute and other standing crops was reported to be fair except in West Bengal where the growth was greatly affected by want of sufficient rain.

IV. **Prospects and probable outturn.**—The prospects of autumn and deep-water paddy and other standing crops were reported to be satisfactory in East and North Bengal, while in West Bengal the outlook is not promising.

V. **Damage to standing crops.**—No damage to the standing crops was reported from any part of the province.

VI. **Condition of agricultural stock.**—The condition of live-stock was on the whole fair. Stray cases of cattle-disease were, however, reported from parts of Nadia, Jessore, Khulna, Burdwan, Midnapore, Dinajpur, Darjeeling, Rangpur, Cooch-Behar, Dacca, Bakarganj, Tippera and Noakhali.

VII. **Failure of pasturage and fodder.**—No scarcity of fodder and water was reported from any part of the province.

VIII. **Prices of food-grains.**—During the second-half of the month the price of common rice of the cheapest quality rose in 7 districts, fell in 5 and remained stationary in the rest of the province. The price varied from 6 seers 8 chittaks per rupee at Darjeeling to 9 seers per rupee at Dinajpur.

IX. **Condition of agricultural people.**—The condition of agricultural population was reported to be fair. The test relief works in the flood affected parts of Rajshahi were closed by the middle of the month.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 18th July 1923.

Summary.—The rainfall during the week was very heavy in parts of North Bengal; elsewhere the fall was much below the normal. More rain is urgently needed throughout the Province for the transplantation of winter paddy seedlings and for the growth of the standing crops except in some North Bengal districts where the standing crops have been materially damaged by continuous and heavy rainfall. Cutting and steeping of lowland jute and reaping of autumn paddy are proceeding satisfactorily in East and North Bengal. The average price of common rice for the Province has slightly fallen as compared with that of the previous week.
